what does it take to be or to become a successful entrepreneur are there specific personality types that are best suited to entrepreneurship and can these types or rather the attributes that combine to forge them be learned or acquired in this book john thompson answers these questions and many more to let the reader see through the eyes of the entrepreneur entrepreneurs talent temperament opportunity and mindset introduces the world of entrepreneurship from a person centred perspective part 1 builds entrepreneur as a person based on the key factors of talent and temperament a unique framework for understanding and exploiting entrepreneurial opportunities part 1 also explores entrepreneurial mindset and how it can be honed and strengthened the process of starting and growing a business is then described in detail in part 2 which also examines entrepreneurship in the context of opportunity and strategy part 3 introduces the infrastructure and environment in which the entrepreneur has to operate and tells the stories of famous entrepreneurs through dozens of case vignettes including classic figures such as henry ford through to social entrepreneurs and even anti social entrepreneurs such as al capone this insightful empirically based take on the entrepreneur provides students with an accessible and original way into entrepreneurship whatever their background students at all levels will value the author s accessible writing style and invaluable insights

an engaging personalized look at the interplay between people and nature in the northeastern and midwestern united states from prehistory to the present the northeast and midwest regions of the united states provide a fascinating case study for the emergent field of environmental history these regions with their varied resources were central to the early economic success of the nation consequently the early industries in these regions altered and depleted the landscape as people changed their locations and occupations fishing and whaling on the northeastern coast have given way to tourism and sailing the great stands of timber around the great lakes have been replaced by farms and dairies the textile mills powered by the falls of the piedmont and once yielding wealth now stand empty that humans shape their environment and in turn must respond to the consequences is broadly obvious using the voices of historical figures both notable and obscure this book brings to life the interaction between humans and their environments and illustrates the

consequences of those interactions part of abc clio s unique nature and human societies series this book enables readers to better understand humanity s effect on the environment

in fields factories and workshops petr alekseevich kropotkin presents a compelling synthesis of agricultural production industrial labor and cooperative economics advocating for the interdependence of these sectors as foundations for a more just society written in kropotkin s distinctively engaging prose the book draws upon empirical evidence and personal observations gathered during his extensive travels across europe and russia his analysis is rooted in a rich historical and social context challenging contemporary capitalist structures while highlighting the practical applications of anarcho communist principles in everyday life kropotkin a renowned geographer and self identified anarchist was deeply influenced by the social inequalities he observed throughout his life leading him to explore alternative models of organization that promote mutual aid and solidarity his aristocratic background and eventual alignment with revolutionary ideals coupled with his commitment to scientific inquiry provided him with a unique perspective to critique the socio economic systems of his time and advocate for decentralized community oriented solutions this book is essential for readers seeking a nuanced understanding of anarchist thought and its applications in modern economies kropotkin s insights not only resonate with contemporary discussions on sustainability and worker autonomy but also inspire movements toward cooperative living and collective responsibility

consists of individuals reports of each of the branches of the department

la ciutat a small port town in the french mediterranean underwent a profound metamorphosis during the nineteenth century once a small maritime community it was transformed into the technical base and shipbuilding centre of the compagnie des messageries maritimes france s largest steam navigation company this book charts the journey of a maritime society through its industrial grown and discovers its economic demographic labour and social changes drawing on unpublished archival material it explores how technological changes and the dominance of a single private shipping company reshaped the town s identity and redefined its relationship with the sea

When somebody should go to the ebook stores, search establishment by shop, shelf by shelf, it is in point of fact problematic. This is why we provide the book compilations in this website.
