sex offending and in particular child sex offending is a complex area for policy makers theorists and practitioners a focus on punishment has reinforced sex offending as a problem that is essentially other to society and discourages engagement with the real scale and scope of sexual offending in the uk this book looks at the growth of work with sex offenders questioning assumptions about the range and types of such offenders and what effective responses to these might be divided into four sections this book sets out the growth of a broad legislative context and the emergence of child sexual offenders in criminal justice policy and practice it goes on to consider a range of offences and victim typologies arguing that work with offenders and victims is complex and can provide a rich

source of theoretical and practical knowledge that should be utilised more fully by both policy makers and practitioners it includes work on female sex offenders electronic monitoring and animal abuse as well as exploring interventions with sex offenders in three different contexts prisons communities and hostels bringing together academic practice and policy experts the book argues that a clear but complex theoretical and policy approach is required if the risk of re offending and further victimisation is to be reduced ultimately this book questions whether it makes sense to locate responsibility for responding to sexual offending solely within the criminal justice domain

veterinary epidemiology is an introductory text to the general concepts and fundamental principles of veterinary epidemiology this book is composed of 20 chapters that consider the vital role of statistics in the field the introductory chapters review the historical development of veterinary medicine some general epidemiological concepts and disease occurrence the subsequent chapters deal with the transmission of infection and the ecology patterns and nature of veterinary diseases these topics are followed by discussions of the importance of basic statistics and computer knowledge in the recording and analysis of epidemiological data other chapters consider the assays and modeling of serological epidemiology the final chapters look into the economics and control of epidemiological diseases this book will prove useful to veterinarians and undergraduate and graduate veterinary students
