this book takes stock of the lessons to be learned from the experiences of different countries on their way to a transition into a unified europe it demonstrates how the project of a unified europe is a social pilot project that is unique in human history both with respect to the sheer number of people involved and with respect to the cultural diversity it aims to turn into a progressive advantage with no historical experience at hand the transition into a unified europe is an

exploratory process often risky but sometimes also surprisingly successful to improve the chances of establishing a successful unification it is particularly important that we learn from the mistakes made so far and that we learn rapidly since the forces working against the pilot project of europe will gain power very fast if the unification success slows down and as the recent developments in greece show the vision of the final goal itself can well change during this exciting quest apart from providing the pieces of a mosaic on which a more general theory can be built this book can be read as a collection of experiences mistakes as well as triumphs which should help the european learning process the structure of the book mirrors europe s diversity specific country studies are combined with more general chapters and quantitatively oriented econometric work is combined with qualitatively oriented sociological studies

this third edition of the definitive guide to banking provides an overview and analysis of developments and research in the field written by leading academics researchers and practitioners

this book analyses and discusses current issues and trends in finance with a special focus on technological developments and innovations the book presents an overview of the classical and traditional approaches of financial management in companies and discusses its key strategic role in corporate performance furthermore the volume illustrates how the emerging technological innovations will shape the theory and practice of financial management focusing especially on the decentralized financial ecosystems that blockchain and its related technologies allow

this handbook constitutes a specialist single compendium that analyses african political economy in its theoretical historical and policy dimensions it emphasizes the uniqueness of african political economy within a global capitalist system that is ever changing and complex chapters in the book discuss how domestic and international political economic forces have shaped and continue to shape development outcomes on the continent contributors also provoke new thinking on theories and policies to better position the continent s economy to be a critical global force the uniqueness of the handbook lies in linking theory and praxis with the past future and various dimensions of the political economy of africa

the historical response to bank crises has always been more regulation a pattern emerges that some may find surprising regulation often contributes to bank instability it suppresses competition and effective response to market changes and encourages bankers to take on additional risk this book offers a valuable history lesson for policy makers

understanding macroeconomic developments and policies in the twenty first century is daunting policy makers face the combined challenges of supporting economic activity and employment keeping inflation low and risks of financial crises at bay and navigating the ever tighter linkages of globalization many professionals face demands to evaluate the implications of developments and policies for their business financial or public policy decisions macroeconomics for professionals provides a concise rigorous yet intuitive framework for assessing a country s macroeconomic outlook and policies drawing on years of experience at the international monetary fund leslie lipschitz and susan schadler have created an operating manual for professional applied economists and all those required to evaluate economic analysis

money travels the modern world in disguise it looks like a convention of human exchange a commodity like gold or a medium like language but its history reveals that money is a very different matter it is an institution engineered by political communities to mark and mobilize resources as societies change the way they create money they change the market itself along with the rules that structure it the politics and ideas that shape it and the benefits that flow from it one particularly dramatic transformation in money s design brought capitalism to england for centuries the english government monopolized money s creation the crown sold people coin for a fee in exchange for silver and gold commodity money was a fragile and difficult medium the first half of the book considers the kinds of exchange and credit it invited as well as the politics it engendered capitalism arrived when the english reinvented money at the end of the 17th century when it established the bank of england the government shared its monopoly over money creation for the first time with private investors institutionalizing their self interest as the pump that would produce the money supply the second half of the book considers the monetary revolution that brought unprecedented possibilities and problems the invention of circulating public debt the breakdown of commodity money the rise of commercial bank currency and the coalescence of ideological commitments that came to be identified with the gold standard all contributed to the abundant and unstable medium that is modern money all flowed as well from a collision between the individual incentives and public claims at the heart of the system the drama had constitutional dimension money as its history reveals is a mode of governance in a material world that character undermines claims in economics about money s neutrality the monetary design innovated in england would later spread producing the global architecture of modern money

this book explores the fundamentals of corporate finance providing a thorough examination of subjects including risk management capital structure financial analysis and business valuation our objective is to offer readers a comprehensive grasp of the ways in which financial decisions affect the larger corporate environment this book is an invaluable tool for everyone involved in finance be they a student professional or company leader it provides you with the knowledge and understanding required to successfully negotiate the intricacies of the financial world
