secular humanists and other progressives have been predicting the demise of religion for the past 250 years but they keep running into a problem those who were supposed to be liberated by the secular gospel that god is dead aren't buying it except for some parts of western europe and in countries culturally destroyed by communism secularization in the radical sense has not occurred while it has not obliterated the religious impulse however the drive towards progressive irreligion has robert royal believes encouraged ignorance of religion's central role in the development of the west in *The God That Did Not Fail* royal offers an original reading of religion in ancient greece and rome of christianity and judaism the middle ages the renaissance and reformation the several modern enlightenments culminating with a profound assessment of our current postmodern moment he concludes that since religion is a permanent part of human nature and of the particular character of the west our efforts should be directed not into a quixotic effort to deny the undeniable especially as we face challenges from islamic fundamentalism but into promoting a well thought out and dynamic interplay of faith reason and modern freedoms

from a height of almost 100 000 members during the depression when politicians workers and intellectuals were drawn into its orbit the american communist party has descended into irrelevance and isolation failing even to run a presidential candidate in 1988 indeed as guenter lewy writes in this critical account of american communism despite decades of feverish activity and ferocious discipline it was a cause doomed to fail from the very beginning in the cause that failed lewy offers an incisive narrative of the american communist party from the days of john reed to the advent of glasnost he traces its origins and development underscoring how its devotion to moscow and inflexible marxist ideology isolated it from the american scene in fact most of its first members were eastern european immigrants during the left wing tide of the depression the communist party reached the peak of its influence as it joined labor unions and progressive organizations in a popular front but lewy reveals the deceptive antidemocratic self defeating tactics the communists pursued even then as they manipulated front organizations seized control of political parties peace groups and labor unions and enforced political conformity among members and sympathizers he follows the party through its inexorable decline in the succeeding decades up to its current position as one of the last stalinist parties left in a world of glasnost and perestroika lewy also provides a sharply critical discussion of the

encounter between communism and liberal and mainstream america he examines such groups as the aclu and sane arguing that the years when these organizations were tolerant toward communists were also the times when they neglected their original purpose in favor of partisan causes he shows how communists have manipulated well meaning citizens in the peace movement and in wallace s 1948 progressive party presidential campaign one of the great ills americans suffer he writes is an overreaction to mccarthyism an atmosphere of anti anticommunism which blinds them to the wrongs wrought by international communism and makes them ignore the deceptive role played by the american communist party which even today still keeps eighty percent of its membership secret the cause that failed presents an intensively researched and trenchantly argued historical analysis of communism in america guenter lewy s provocative account provides a new understanding of communism s machinations in u s politics and how americans from across the political spectrum have responded to its challenge

communism has generally been seen to be in long and gradual retreat all over the world since the 1980 s unease against communism and its general principles has been known since at least 1968 when the prague spring unraveled itself this was a period of liberalization in eastern europe but was brutally suppressed by the former soviet union and its communist leaders who feared its ripple and cascading effects in the rest of the communist world the soviet union itself crumbled less than a quarter of a century later this collapse was precipitated by mikhaïl gorbachev s reforms namely glasnost or openness and perestroika or structural reform gorbachev needs no introduction to most people he was born in 1931 and died in 2022 gorbachev s began his political career in the communist party of the former soviet union where gradually he rose through the ranks to assume leadership positions becoming general secretary in 1985 gorbachev gradually moved away from orthodox stalinism leninism to embrace more democratic ideals he therefore sought to modernize the ussr by saving its stagnant economy which was even being overtaken by newly emerging asian powers and counter nationalist sentiments in other soviet republics the soviet union was subsequently formally dissolved on the 26th of december 1991 by a declaration known as 142 n all the soviet republics declared their independence effectively putting an end to the ussr which vanished into the annals of history many communist nations of eastern europe were dissolved even prior to this with the berlin wall falling in november 1989 and nicolae ceausescu s regime in romania being toppled a month later
