while undermining our freedom behind closed doors imagine sending your conservative daughter off to your state's flagship university after six long years not the four years you expected she returns home with a bachelor's degree in one of the studies she returns home to live because she can't find employment sufficient to support herself as heartbreaking as that is you soon discover she is now a socialist hates america and blames men for a patriarchal society she believes ruined her life she left home full of love but returned filled with hate unfortunately that is not imaginary and there is no place to turn our 4 000 independent universities act as one and their 1 5 million professors hold homogenous views this single mindedness has eliminated free speech and critical thinking by students and faculty alike confessions of a professor provides an insider's in depth analysis of our universities destructive actions in three broad areas first it details their failure to educate students to contribute to society second it exposes academia's politicized research that helps form government policy finally it documents academia's actions to undermine us at home and betray us abroad beyond those issues it explains academic research in an easily understood manner it shows how academic studies align with the new socialist democrat party and drive regulations that control our lives as bad as their politicized science is and their students experiences can be this book also exposes the extent of racism in the name of diversity similarly it reveals how the war on men has led to 50 more women attending universities and much worse but even if all these issues were rectified academia's traitorous relationship with china is enough alone to condemn the institution as this book shows we cannot maintain an advanced society without a higher education system but ours is failing america and actively undermining us internationally the author provides over 500 references to support these findings
