at the age of ten that all started to unravel for author ted brasier when a diesel fuel explosion took 40 of his flesh over the next thirty years he slowly realized that tragedy could actually be a blessing for years as a heavy metal singer he tried to help take away others pain through his lyrics once he understood the reality truth and sufficiency of scripture he stopped asking the world to look at him and started asking them to listen to their savior this is a story of awakening follow ted brasier as he finds a solid path and truly gets the point of life

this book offers the first systematic account in english of the spanish mass press coverage of jihadist terrorist attacks in contemporary spain drawing upon a critical analysis of the spanish transition to democracy 1975 82 and war on terror narratives it examines the ideology underlying the metaphors used in the spanish mainstream press coverage of the terrorist attacks in madrid 2004 and barcelona 2017 the book shows how these metaphors were systematically deployed for propagandistic purposes that sought to manufacture the consent of the spanish population while obstructing public deliberation apropos the attacks strengthening spanish democracy by defining it in opposition to jihadist terrorism this book will be of interest to students of critical terrorism studies spanish politics media studies and security studies chapter 7 of this book is freely available as a downloadable open access pdf at taylorfrancis.com under a creative commons attribution non commercial no derivatives cc by nc nd 4.0 license

at some point in our lives most of us have been lost how does this happen what are the limits of our ability to find our way do we have an innate sense of direction how people get lost reviews the psychology and neuroscience of navigation it starts with a history of studies looking at how organisms solve mazes it then reviews contemporary studies of spatial cognition and the wayfinding abilities of adults and children it then considers how specific parts of the brain provide a cognitive map and a neural compass this book also considers the neurology of spatial disorientation and the tendency of patients with alzheimer's disease to lose their way within the book the author proposes that we get lost because our brain's compass becomes misoriented this book is written for anyone with an interest in navigation and the brain it assumes no specialised knowledge of neuroscience but covers recent advances in our understanding of how the brain represents space

call it a mid life crisis but you reach a point where nothing makes sense anymore not the goals you

set yourself the years focussed on trying to achieve them what was let go what was gained along the way you look back and think is that it then you get sick and everything changes this startlingly honest and often hilarious memoir from one of ireland s best loved comediennes is told through the lens of cancer treatment and its aftermath from the moment when she heard but didn t necessarily absorb the shocking diagnosis through the months that followed gildea describes the mixed emotion of the journey at once swept along on its tide and struggling to grapple with its effects through depression comedy catholicism chemotherapy the bog emigration sex mastectomy fear and love i ve got cancer what s your excuse takes a refreshingly irreverent look at life the stuff it throws at you and what you do with it as it ultimately asks did cancer save me

why we learn the wrong things from narrative history and how our love for stories is hard wired to understand something you need to know its history right wrong says alex rosenberg in how history gets things wrong feeling especially well informed after reading a book of popular history on the best seller list don t narrative history is always always wrong it s not just incomplete or inaccurate but deeply wrong as wrong as ptolemaic astronomy we no longer believe that the earth is the center of the universe why do we still believe in historical narrative our attachment to history as a vehicle for understanding has a long darwinian pedigree and a genetic basis our love of stories is hard wired neuroscience reveals that human evolution shaped a tool useful for survival into a defective theory of human nature stories historians tell rosenberg continues are not only wrong but harmful israel and palestine for example have dueling narratives of dispossession that prevent one side from compromising with the other henry kissinger applied lessons drawn from the congress of vienna to american foreign policy with disastrous results human evolution improved primate mind reading the ability to anticipate the behavior of others whether predators prey or cooperators to get us to the top of the african food chain now however this hard wired capacity makes us think we can understand history what the kaiser was thinking in 1914 why hitler declared war on the united states by uncovering the narratives of what happened and why in fact rosenberg argues we will only understand history if we don t make it into a story

my book is about a very traumatic event in my life it is very emotional and it will encourage and inspiring my readers that they can survive any obstacle that comes there way through determination and faith
