mary barra s quest to move gm to a manufacturer of electric cars has captured the attention of
 automobile aficionados green business advocates and leaders of all types who have to admire
 mary s toughness in moving forward despite the overwhelming obstacles in her path a decade
 ago no one would have guessed that gm would be the company poised to lead america into the
 future at a time when business book readers seem endlessly fascinated by soaring tech giants
 like amazon and netflix and ill fated startups like wework and theranos why is it important to put
 the spotlight back on 112 year old gm because charlie wilson s quip from 1952 is still true what s
 good for gm is still good for america and vice versa america needs to transition to a new era of
 clean energy and environmentally sustainable transportation we also need to adapt to a world
 with far fewer assembly line jobs but far more skilled jobs for people who can design build and
 operate robots and other high tech machines gm s attempt to lead those transitions is as
 important as it is dramatic equally compelling is the story of gm s ceo mary barra who against all
 odds took the reins at gm in 2014 since that time she has attempted to reinvent a century old
 company and equip it for the biggest change in transportation since the internal combustion
 engine replaced the horse in the process she has been ripping out gm traditions by the roots and
 taking flak from all sides her plan is to make gm the company famed for the gas burning corvette
 hulking cadillac escalade and carbon spewing silverado pickup purely electric and clean by 2035
 she may not be as wealthy as jeff bezos as brash as elon musk or as powerful as mark
 zuckerberg but mary barra is just as important as any of them and as one of the most powerful
 female executives in the world she is overdue for an in depth look at her forward thinking vision
 her approach to leadership and her accomplishments against the odds
