this book provides a philosophical analysis of the experience of health and investigates how this experience is shaped by recent developments in medicine and public health it shows how phenomenological and foucauldian approaches to health can be systematically integrated into a general account of healthy embodiment many medical practitioners argue for a shift from curative to preventative medicine technoscientific developments now enable us to track our health and provide more effective ways to live healthily this book argues that these developments shape how we experience our health of and others as well as the way in which we distinguish between health and illness its starting point is that health is not so much an object with well defined boundaries that can be scrutinized scientifically but is better understood as an embodied experience the author uses phenomenology and the work of foucault to develop a theory of healthy embodiment he argues that experiencing oneself as a healthy subject requires being made present as a healthy object by someone or something else he explores how the experience of health results from the interaction between being a subject and being an object and potentially involves challenging medical norms healthy embodiment will be of interest to researchers and graduate students working in phenomenology science and technology studies medical humanities bioethics and sociology of medicine

the new boundaries between bodies and technologies constitute one of the most important developments in the last fifty years through technologies we not only change the relations between a natural given the body and a human made artefact the technology but also change the ways we experience the world how close are we to a world in which the abilities of machines are indistinguishable from those of the species that invented them our encounters with the new technologies change the cognitive processes and influences the modes of processing information moreover it raises the question of the nature of human beings traversing body as emotive being in the world and body as location culturally and socially constructed there is a third dimension the dimension of technological are we able to use these new dimension as a creative interface between the emotional brain the acting body and icts in answering these questions the book explores the action of bodies in technology that is how the sense of our bodies and of our orientation in the world are affected by information and communication technologies it contributes therefore to the world wide discussion and debates on the impact of technology especially information technology on the lives of human beings in the age of globalization in particular to the present thinking of the relationship between technology and embodiment

this volume explores the phenomenology of broken habits and their affective social and involuntary dimensions it shows how disruptive experiences impact self understanding and social embeddedness the chapters in this volume investigate the epistemic and existential relevance of breakdown of habits and the corresponding kinds of self understanding available to the agent the first part focuses on the double sidedness of habitual life on the one hand habits allow us to arrange and navigate in a familiar home world on the other hand habits can take hold of us in such a way that we lose our sense of autonomy the contributors argue that habitual agency is structurally carried by a dynamic that entails both freedom and necessity as habits enable us to inhabit and thus acquire a world they also affectively provide a texture and a background for our feeling at home in the world the chapters in part 2 focus on the breakdowns of our habitual social and technological life forms and the phenomenology of their affective texture history and habitual learning are sedimented in our body memory and in our language and these sedimented layers are partly out of our direct control part 3 focuses on the structural openness of habits in relating to one s past and one s traumatic experiences part 4 reflects on the ways in which we might become aware of and thus transform or appropriate our culturally given habits phenomenology of broken habits will appeal to researchers and

advanced students working in phenomenology philosophy of mind and philosophy of psychology
