regardless of culture most adult humans report experiencing similar feelings such as anger fear humor and joy such subjective emotional states however are not universal members of some cultures deny experiencing specific emotions such as fear or grief moreover within any culture individuals differ widely in their self reports of both the variety and intensity of their emotions some people report a vivid tapestry of positive and negative emotional experiences other people

report that a single emotion such as depression or fear totally dominates their existences still others report flat and barren emotional lives over the past 100 years scientists have proposed numerous rival explanations of why such large individual differences in emotions occur various authors have offered anthropological biochemical ethological neurological psychological and sociological models of human emotions indeed the sheer number of competing theories precludes a comprehensive review in a single volume accordingly only a representative sample of models are discussed in this book and many equally important theories have been omitted these omissions were not intended to prejudice the reader in favor of any particular conceptual framework rather this selective coverage was intended to focus attention upon the empirical findings that contemporary theories attempt to explain

emotional tornados in your workplace can be just as destructive as the natural kind you will find dr vali s book to be both an excellent read and a great catalyst for generating new ideas about how these concepts could be incorporated in your mission statement if you are open minded about bcm i suggest you read this book now and start applying its principles well before the next major incident impacts your organization lyndon bird fbc technical director business continuity institute

what role does animal like and infantile communication play in life and in psychoanalysis how are painful childhood experiences recreated with people who are nothing like the original family what are the roles of loving and horrible feelings in psychoanalytic cure in emotional communication paul geltner places the pre linguistic type of communication that is shared with infants and animals at the core of the psychoanalytic relationship he shows how emotional communication intertwines with language permeating every moment of human interaction and becoming a primary way that people involuntarily recreate painful childhood relationships in current life emotional communication integrates observations from a number of psychoanalytic schools in a cohesive but non eclectic model geltner expands psychoanalytic technique beyond the traditional focus on interpretation and the contemporary focus on authenticity to include the use feelings that precisely address the client s repetitive patterns of misery the author breaks down analytic interventions into their cognitive and emotional components describing how each engages a different part of the client s mind and serves a different function he explains the role of emotional communication in psychoanalytic technique both in classical interpretations and in non interpretive interventions that use the analyst s feelings to amplify the therapeutic power of the psychoanalytic relationship offering a clear alternative to both classical and contemporary relational and intersubjective approaches to understanding and treating clients in psychoanalysis paul geltner presents a theory of communication and maturation that will interest psychoanalysts psychotherapists and those concerned with the subtleties of human relatedness

the handbook language and emotion is intended to give a historical and systematic profile of the area it will aim to connect contemporary and historical theories approaches and applications and to cover eastern and western perspectives of language communication and emotion it will present all relevant aspects of language and emotion and thus contribute significantly to research in the field of linguistics and semiotics of emotion

throughout the history of psychology there have been full investigations of discrete emotions particularly negative ones and a recent wealth of books on happiness but few exist on the emotion of joy this book takes a unique psychological approach to understanding this powerful emotion and provides a framework within which the study of human joy and other related positive fulfillment experiences can fit in a meaningful schema a key feature of this book is its development of an experiential phenomenology of joy this phenomenology is based on more than three hundred descriptions of joy experiences recounted by subjects in an empirical study executed by the author types of joy experiences are examined such as excited vs serene joy anticipatory vs completed joy and affiliative vs individuated joy there is no comparable book or work that clarifies the relationship among major positive states with emotional components including satisfaction happiness and ecstasy

true emotions discusses several key problems in emotion research the question about the true nature of emotions focuses on the role of cognition in human emotions at different levels of analysis functional role types of processes and representations and neural implementation truth to the self or authenticity has two meanings psychological and normative where the latter is analyzed as coherence between the evaluative content of an emotion and the subject's internally justified beliefs and values truth to the world is argued to be a matter of correct evaluative representation of the emotional object on the one hand and the existence of the object or the actuality or accurate probability of the represented situation on the other hand finally authenticity and truth are applied to analyses of the authenticity of occupational emotions and the constitution of sentimental values respectively recommended reading for philosophers psychologists sociologists and gender researchers

this volume advances our understanding of early christianity as a lived religion by approaching it through its rites the emotions and affects surrounding those rites and the material setting for the practice of them the connections between emotions and ritual between rites and their materiality and between emotions and their physical manifestation in ancient mediterranean culture have been inadequately explored as yet especially with regard to early christianity and its water and dining rites readers will find all three areas ritual emotion and materiality engaged in this exemplary interdisciplinary study which provides fresh insights into early christianity and its world ritual emotion and materiality in the early christian world will be of special interest to interdisciplinary minded researchers seminarians and students who are attentive to theory and method and those with an interest in the new testament and earliest christianity it will also appeal to those working on ancient jewish and greco roman religion emotion and ritual from a comparative standpoint

the outgrowth of a university of chicago conference on the psychological and biological bases of behavior this unique collection of papers integrates the biological consideration of emotion with current psychological approaches as such it includes studies of the coping process associated with emotion as well as those that focus on the appraisal process giving rise to emotion the book approaches emotion from cognitive developmental and biological systems and psychopathological perspectives theories on the cognitive biological and developmental bases for interpreting representing and reacting to emotional

situations are proposed in addition new studies on issues and questions regarding the roles of cognition language brain lateralization socialization psychopathology and coping with affect are presented

the routledge international handbook of legal and investigative psychology explores contemporary topics in psychological science applying them to investigative and legal procedures written by recognized scholars from around the globe this book brings together current research emerging trends and cutting edge debates in a single comprehensive and authoritative volume drawing from both research and practice this handbook highlights many important issues such as how to investigate and prosecute rape the value of emotional affect in homicide investigations and factors affecting jurors and suspects decision making by considering current research the authors inform both legal and investigative professionals of findings that are of direct relevance to them and the steps that can be taken to improve efficiency this collection will inform investigative and legal professionals advanced psychology students academics researchers and policy makers it will also be of great interest to researchers from other disciplines including criminology policing and law

states of emotion were vital as a foundation to society in the premodern period employed as a force of order to structure diplomatic transactions shape dynastic and familial relationships and align religious beliefs practices and communities at the same time societies understood that affective states had the potential to destroy order creating undesirable disorder and instability that had both individual and communal consequences these had to be actively managed through social mechanisms such as children s education acculturation and training and also through religious intellectual and textual practices that were both socio cultural and individual presenting the latest research from an international team of scholars this volume argues that the ways in which emotions created states of order and disorder in medieval and early modern europe were deeply informed by contemporary gender ideologies together the essays reveal the critical roles that gender ideologies and lived structured and desired emotional states played in producing both stability and instability

the handbook consists of four major sections each section is introduced by a main article theories of emotion general aspects perspectives in communication theory semiotics and linguistics perspectives on language and emotion in cultural studies interdisciplinary and applied perspectives the first section presents interdisciplinary emotion theories relevant for the field of language and communication research including the history of emotion research the second section focuses on the full range of emotion related aspects in linguistics semiotics and communication theories the next section focuses on cultural studies and language and emotion emotions in arts and literature as well as research on emotion in literary studies and media and emotion the final section covers different domains social practices and applications such as society policy diplomacy economics and business communication religion and emotional language the domain of affective computing in human machine interaction and language and emotion research for language education overall this handbook represents a comprehensive overview in a rich diverse compendium never before published in this particular domain

when using emotion terms such as anger sadness fear disgust and contempt it is assumed that the terms used in the native language of the researchers and

translated into english are completely equivalent in meaning this is often not the case this book presents an extensive cross cultural linguistic review of the meaning of emotion words

publisher description
