ebook microeconomics global edition

this book combines elements of economic and business history to study business ethics from the nineteenth century to today it concentrates on american and british business history delving into issues such as slavery industrialization firm behavior and monopolies and ponzi schemes this book draws on the work of economists and historians to highlight the importance of changing technologies religious beliefs and cultural attitudes showing that what is considered ethical differs across time and place

rosen and gayer s public finance provides the economic tools necessary to analyze government expenditure and tax policies and along the way takes students to the frontiers of current research and policy while the information presented is cutting edge and reflects the work of economists currently active in the field the approach makes the text

accessible to undergraduates whose only prior exposure to economics is at the introductory level the authors years of policy experience have convinced them that modern public finance provides a practical and invaluable framework for thinking about policy issues the goal is simple to emphasize the links between sound economics and the analysis of real world policy problems enhancements and key features for this new global edition include new policy perspectives introduce relevant and engaging examples of international policy so students can extend their understanding of theory to policymaking across the globe new empirical evidence applications provide students with real world examples that are relevant to them from case studies about sweden and china to global examples that compare experiences between countries updated end of chapter questions broaden critical thinking encouraging students to apply their knowledge to international and comparative examples the results of econometric models are used to help students understand how expenditure and tax policies affect individual behavior and how governments set policies integrated theory and analysis institutional theoretical and empirical material is interwoven to provide students with a clear and coherent view of how government spending and taxation relate to economic theory current research is presented alongside discussion of methodological and substantive controversies the approach is modern theoretical and empirical and shared by most active economists institutional and legal settings are described in detail and the links between economic analysis and current political issues are emphasized this global edition has been adapted to meet the needs of courses outside of the united states and does not align with the instructor and student resources available with the us edition

this book aims to inform the non it specialist about the technological revolution that is taking place and specifically how the digital component of it is affecting our lives it is hoped that this information will fill possible information gaps in readers mental model enabling them to make better informed decisions this book can also be used as a textbook in a stand alone introductory course to the digital revolution and its effects on society the course could be used in both bachelor and master degree programs in business management healthcare management sociology or any other non it programs chapter 1 this chapter although the longest is a brief review of the interactions between technology economy and politics the subject is a much neglected one and i believe that understanding of these interactions is vital for understanding the underlying causes of some of our most important pressing issues the chapter discusses the interactions between technologies economy and politics examining the effect of technologies on economic development and political ideologies chapter 2 this chapter deals with technological revolutions in general and the digital revolution in particular i shall discuss the components of the digital economy these being knowledge digitisation virtualisation molecularization integration internetworking disintermediation convergence innovation sharing economy immediacy and discordant in addition we shall examine the disruptors that are changing the face of competition in the marketplace chapter 3 this chapter deals with digital transformation i e the process of using digital technology in all areas of business changing the way the businesses operate and deliver value to their customers we shall examine models for dealing with digital transformation chapter 4 we shall examine one of the most important developments of the 21st century namely the advancements in artificial intelligence ai we shall look at how the human brain works and what is intelligence we shall look at the artificial neural networks machine learning and deep learning we shall also look at the deployment of ai in various fields such as healthcare finance natural language processing npl news media and warfare chapter 5 this chapter deals with one of the most controversial and yet promising developments in finance and distributed secure databases namely cryptocurrencies and blockchains this subject is divided into two parts the first part deals with the cryptocurrencies and their viability as currencies one of the most popular cryptocurrencies the bitcoin will be examined in depth the second part is somewhat technical and deals

with the inner workings of the blockchains as with cryptocurrencies many see a bright future for the blockchains especially in the form of smart contracts many believe that blockchains will be of great value in areas such as finance handling contracts healthcare and more blockchain promises to bring disintermediation to many industries and thereby reduce costs chapter 6 technological revolutions tend to disrupt the lives of many middle aged and older workers new technologies give birth to new industries destroying the old industries in the process new technologies often require special skills that the old industry workers do not possess the laid off workers of the old industries can seldom find jobs in new industries since the new industries often rely on new technologies and skills that the old industry workers do not possess these workers need training something that the prospective employers do not provide also the new technologies including ai are automating many tasks reducing the need for human workers this chapter discusses the issue of automation and its effect on employment additionally the type of jobs that are in danger of automation is discussed as well chapter 7 while chapter six discussed the employment situation chapter seven considers the type of education required by the new industries also the weaknesses of the existing educational system are considered and alternative systems are proposed chapter 8 history tells us that whenever there has been a technological revolution it has been accompanied by a shift in power both nationally and internationally the global shift of power has seldom been a peaceful affair it often has resulted in major wars and global reorientation this chapter discusses the possibility of the global shift of power currently there are not that many countries or entities that can be considered as contenders of the three russia european union and china only one china is considered to have any chance of wresting power from the united states the technological economic and military power of china is compared and contrasted with the united states

ebook advanced macroeconomics

dornbusch fischer and startz has been a long standing leading intermediate macroeconomic theory text since its introduction in 1978 this revision retains most of the text s traditional features including a middle of the road approach and very current research while updating and simplifying the exposition a balanced approach explains both the potential and limitations of economic policy macroeconomics employs a model based approach to macroeconomic analysis and demonstrates how various models are connected with the goal of giving students the capacity to analyze current economic issues in the context of an economic frame of reference the only pre requisite continues to be principles of economics

abundant with practical advice and ready to use teaching examples this dynamic guide will help both new and experienced instructors of principles of microeconomics to reconsider and refine their courses mark maier and phil rudner assemble the wisdom of 25 eminent scholars of economic education on how best to introduce students to the discipline and inspire a long lasting passion for microeconomics

this book offers the latest research information on the beneficial effects of nitrates and their fate in the environment and will be applicable to a wide research audience

building on the tremendous success of their best selling economics brue mcconnell and flynn have revised their one semester approach in essentials of economics 3e to provide a fresh alternative for the survey course the result is a patient substantive treatment of micro and macro topics appropriate for the introductory economics student and fully integrated in the digital environment to provide instant remediation and feedback through mcgraw hill s innovative assessment tool connect plus economics mcgraw hill s adaptive learning component learnsmart provides assignable modules that help students master core concepts in the course

focusing on how to conduct and lead groups in a variety of therapeutic settings learning group leadership an experiential approach third edition covers theory process leadership ethics special populations and challenges as they relate to group work in a positive realistic and knowledgeable way jeffrey a kottler and matt englar carlson introduce important conceptual and practical information and then use activities exercises field study assignments and personal application questions to help students apply concepts to their work and lives the fully updated third edition brings concepts to life through student voices in every chapter examples drawn from the authors combined 55 plus years of experience and demonstration video content that contains sessions corresponding with every chapter this is the best book out there for introducing students to the complex world of groups the text delivers what it promises in the title it teaches counseling graduate students how to become solid group leaders or to be more precise how to begin their journey in that direction and it does this in a way that is positive knowledgeable and realistic the most impressive aspect of the material is the authors focus on the experiential approach training students to be group leaders combined with an accessible writing style a lot of knowledge and an enthusiastic attitude marilyn macgregor western new mexico university it s clear that the authors have a wealth of experience with counseling groups information is conversationally presented and realistically discussed marla j muxen south dakota state university this book is very readable and clearly explains the points it makes using accessible examples which students can readily understand skills discussed can be appreciated and applied to whatever personal experience of facilitating groups the student already has as such it is a text which grows with the student corinne hutt greenyer university of southampton

the twentieth edition takes the agricultural notebook into its third century it has been thoroughly revised and updated to reflect the considerable changes in agricultural and rural practices and policies which have taken place since publication of the previous edition the book is divided into four parts crops management animal production and farm equipment new sections added to this edition include 1 a marketing perspective on diversification 2 organic farming and 3 farming and wildlife since the first edition was compiled by primrose mcconnell in 1883 the agricultural notebook has become established as the standard work of reference for all those in the farming industry with each edition it has evolved and changed in such a way as to provide agricultural scientists students of agriculture and related subjects farmers farm managers and land agents with an abundance of current information on all aspects of the business of farming many comments received from lecturers and students who have used previous editions of the book have been taken into account in producing the twentieth edition the thirty contributing authors have fully updated chapters a new clearer layout has been adopted and much new information is included in easy to use tables and figures the agricultural notebook is an essential purchase for all students of agriculture countryside and rural studies professionals such as farmers land agents agricultural scientists advisers suppliers to the agriculture industry and all those with a connection and interest in the agricultural community will find a huge
