an astounding project of analysis on more than one hundred translations of ancient philosophical texts this index of words found in the ancient commentators on aristotle series comprises some 114 000 entries it forms in effect a unique dictionary of philosophical terms from the post hellenistic period through to late antiquity and will be an essential reference tool for any scholar working on the meaning of these ancient texts as traditional dictionaries have usually neglected to include translation examples from philosophical texts of this period scholars interested in how meanings of words vary across time and author have been ill served this index fills a huge gap therefore in the lexical analysis of ancient greek and has application well beyond the reading of ancient philosophical commentaries bringing together the full indexes from 110 of the volumes published in bloomsbury s ancient commentators on aristotle series mckirahan has combined each word entry and analysed how many times particular translations occur he presents his findings numerically so that each meaning in turn has a note as to the number of times it is used for meanings that are found between one and four times the volume details are also given so that readers may quickly and easily look up the texts themselves

this open access book presents work collected through the liquefaction experiments and analysis projects leap in 2017 it addresses the repeatability variability and sensitivity of lateral spreading observed in twenty four centrifuge model tests on mildly sloping liquefiable sand the centrifuge tests were conducted at nine different centrifuge facilities around the world for the first time a sufficient number of experiments were conducted to enable assessment of variability of centrifuge test results the experimental data provided a unique basis for assessing the capabilities of twelve different simulation platforms for numerical simulation of soil liquefaction the results of the experiments and the numerical simulations are presented and discussed in papers submitted by the project participants the work presented in this book was followed by leap asia that included assessment of a generalized scaling law and culminated in a workshop in osaka japan in march 2019 leap 2020 ongoing at the time of printing is addressing the validation of soil structure interaction analyses of retaining walls involving a liquefiable soil a workshop is planned at rpi usa in 2020
