a compact overview of the most relevant concepts and developments in international management the various strategy concepts of internationally active companies and their implementation in practice are the core of this book the authors describe the particularities of international value chain activities and management functions and

offer a thorough understanding of how production sourcing research development marketing human resource management and controlling have to be designed in an international company and what models are available to understand those activities in an international context in 23 lessons a comprehensive overview of all key issues is given each lesson is accompanied by a case study from an international company to facilitate the understanding of all important factors involved in strategic international management in this third edition all chapters have been updated all case studies revised new chapters and recent data were integrated

the discourse of wealth and poverty in the book of proverbs includes a discussion of proverbs and metaphor reviews previous studies of wealth and poverty in proverbs offers in depth analyses of particular passages in proverbs and suggests a possible social historical setting for the book

in this third volume deriving from the 2000 2003 excavations of the viking town of kaupang a range of artefacts is presented along with a discussion of the town s inhabitants their origins activities and trading connections the main categories of artefact are metal jewellery and ornaments gemstones vessel glass pottery finds of soapstone whetstones and textile production equipment the artefacts are described and dated and their areas of origin discussed the volume is lavishly illustrated an exceptional wealth and diversity of artefacts distinguishes sites such as kaupang from all other types of site in the viking world above all they reflect the fact that a large population of some 400 600 people lived closely together in the town engaged in a comprehensive range of production and trade the stratigraphically distinct layers from the first half of the 9th century allow us to put precise dates to the finds and to the buildings and evidence of activities associated with them the finds and structural remains make it possible to identify the activities that took place within the six buildings excavated we can distinguish between some buildings that were only temporarily in use and others that were permanently occupied several of the temporary buildings were used by a variety of craftsmen while those under permanent occupation were houses and only to a secondary degree workshops throughout the life of the town from c ad 800 930 trade links with southern scandinavia the baltic and the irish sea would appear to have been strong in the earliest phases of the town there was considerable trade with the frisian regions probably with dorestad but this link faded markedly in the second half of the 9th century probably because of the abandonment of dorestad within what is now norway kaupang seems to have been supplied with goods from the interior of eastern norway goods from around the western coasts of norway however are practically invisible finds of personal equipment show that the inhabitants of the town were of diverse origins many of them were from southern and western scandinavia but there were also frisians there one house can be identified as that of a frisian household engaged in trade there were also slaves in kaupang although it is not clear whether they were long term residents

this book provides an accessible introduction to the emerging field of behavioral public choice economics and the law this field studies how public officials lawmakers and judges fall prey to their own biases and heuristics and how constitutions and judicial doctrines can be structured to mitigate these cognitive shortcomings written lucidly in

plain language this book is invaluable to all students scholars and general readers interested in behavioral economics law and economics and political economy

approaches to early medieval peasantry are often polarized either enhancing the benefits brought by the weakening of aristocratic dominance or emphasizing the limited prospects for peasant development in the absence of a solid extra regional trade network this study offers a long term overview of the peasant economy throughout the 1st millennium ad in the upper volturmo basin between the town of isernia and the monastery of san vincenzo al volturmo the reader is presented with data collected from two archaeological surveys and is invited to scrutinize changes in settlement patterns ancient land use and ceramic distributions while the main economic center shifted from town to monastery these proxies of economic performance offer a vantage point to reconstruct the history of agrarian production and of exchange networks in central italy opening a novel outlook on peasant social dynamics at a time when the roman economic system transitioned into the feudal system the results show that the golden age of peasants was an age of experimentation forcing to reconsider the role of the peasantry in the making of the feudal economy

the first fully comparative study of fuel poverty across the eu this work analyses the relationship between domestic energy efficiency fuel poverty and health the book adopts a holistic approach incorporating a large number of social and economic risk factors to present a large scale cross country longitudinal analysis the book is unique in developing a new consensual methodology for calculating cross country fuel poverty levels presenting a detailed econometric statistical analysis of eu fuel poverty detailing the results of an empirical investigation of eu housing conditions affordability and housing satisfaction identifying risk factors related to seasonal variations in mortality across the eu offering an empirical examination of health outcomes associated with fuel poverty providing startling new evidence on fuel poverty in southern europe housing fuel poverty and health provides a powerful reference source for researchers and practitioners in the areas of energy economics public health and epidemiology housing and social policy

epdf and epub available open access under cc by nc nd licence in recent years climate litigation has become an important subject of global scholarly and policy interest however developments within the global south particularly in africa have been largely neglected this volume brings together an international team of contributors to provide a much needed examination of climate litigation in africa the book outlines how climate litigation in africa is distinct as well as pinpointing where it connects with the global conversation chapters engage with crucial themes such as human rights approaches to climate governance corporate liability and the role of gender in climate litigation spanning a range of approaches and jurisdictions the book challenges universal concepts around climate and the role of activism including litigation in seeking to advance climate governance
