Jit S Chandan is a professor of management in the department of business administration at Medgar Evers College City University of New York. He previously taught at New York Institute of Technology and at Baruch College City University of New York in the areas of management, organizational behaviour and quantitative methods. He has been teaching at the college level for the last 37 years. Dr Chandan holds a doctorate from Delhi University Faculty of Management and has authored many textbooks and published many articles in professional journals. Some of his books published by Vikas include Fundamentals of Modern Management, Management Theory and Practice, Business Statistics Essentials, Linear Programming Statistics for Business and Economics, and Management Concepts and Strategies.

The 9th edition of this classic textbook provides students with a firm understanding of current management theories and practical skills to help smooth their transition into the workplace. Combining theory and practice, it has been fully updated with a revised three-part structure to help learners focus on the many roles managers can play in an organization. It covers the topics most commonly taught on business courses at undergraduate and postgraduate level and gives students an insight into the latest trends in the ever-changing world of management.

An overview of what knowledge management is, the theoretical basis behind it, and practical insights into how it can be implemented effectively in a professional setting. Starting with a discussion of how knowledge management has evolved, how it adds value for organisations, and how its success can be measured, the book then covers best practice and the key activities associated with doing knowledge management, including knowledge strategy, managing knowledge loss, and knowledge sharing. Finishing with a discussion of knowledge management's role in international business and what future developments are expected in the field, practical insights are drawn from around the world with case studies such as how NASA forgot how to send a man to the moon, Acer the smiling Asian tiger, and why Saudi Arabia's experts do not learn from overseas experts. The book is supported by online resources for lecturers and students, including powerpoint slides, an instructor's manual, access to Sage journal articles, and scorecards for measuring usefulness of knowledge management tools. Suitable reading for undergraduate and postgraduate.
