praise for the first edition a brave and fascinating exploration of an area that has so far been rather neglected by both historical and literary critics the beast within provides extremely valuable information on the legal and cultural background of the human animal relationship studies in the age of Chaucer this important book offers a unique exploration of the use of and attitude towards animals from the 4th to the 14th centuries the beast within explores the varying roles of animals as property food and sexual objects and the complex relationship that this created with the people and world around them Joyce E Salisbury takes an interdisciplinary approach to the subject weaving a historical narrative that includes economic legal theological literary and artistic sources the book shows how by the end of the middle ages the lines between humans and animals had blurred completely making us recognise the beast that lay within us all this new edition has been brought right up to date with current scholarship and includes a brand new chapter on animals on trial and animals as human companions as well as expanded and updated discussions on fables and saints and a new section on bestial humans this important and provocative book remains a key work on the historical study of animals as well as in the field of environmental history more generally and also provides crucial context to ongoing debates on animal rights and the environment

first corinthians 15 56 the sting of death is sin and the power of sin is the law is both puzzling and neglected it is puzzling since there appears to be no precursor in 1 corinthians to the law critical statement found there it is neglected because of its size nevertheless the short verse offers the opportunity to analyze in a rudimentary state paul s law sin notion that appears full blown in romans and the absence of a polemical setting allows scholars to examine a law critical statement issued during a polemical lull in the law and knowledge of good and evil vlachos weighs attempts to explain the presence of 1 cor 15 56 in 1 corinthians and argues that the genesis fall narrative where the tempter plied his seductions by way of the commandment provides the theological substructure to paul s understanding of the law s provocation of sin in doing so vlachos contends that paul reaches the historical high water mark of his polemic against the salvific efficacy of the law by locating a law sin nexus in eden and contrary to some recent perspectives on paul he argues that the edenically informed axiom in 1 cor 15 56 suggests that paul s fundamental concern with the law was rooted in primordial rather than ethnic soil while studies of paul and the law have tended to bypass eden the law and knowledge of good and evil breaks ground by moving the argument beyond second temple judaism to the genesis fall account where the prohibition against partaking of the knowledge of good and evil led to the knowledge of sin
