when speaking colloquially of political participation or civic action one thinks in the first instance of groups and organizations such as political parties social movements or various types of voluntary associations the perspective of individuals is not the first thing that comes to mind when seeking to understand their functioning in contrast to this vision understanding the dynamics of participation requires taking a closer look at the individual that is at his or her moral dispositions and projects his or her multiple and simultaneous identities the breaking points in his or her biographical trajectory the roles he or she adopts in an organization or the styles of communication which he or she uses the book comprises a variety of case studies and theoretical and methodological contributions that independent of rational choice theories seek to understand collective action at the level of the individual and in doing so to articulate the various fields of study in this regard with the singularity of biographies and the reflective personal identities that characterize contemporary individualism

this book challenges us to look at liberal political ideas in a fresh way colin bird examines the assumption held both by liberals and by their strongest critics that the values and ideals of the liberal political tradition cohere around a distinctively individualist conception of the relation between individuals society and the state he concludes that the formula of liberal individualism conceals fundamental conflicts between liberal views of these relations conflicts that neither liberals nor their critics have adequately recognized his interesting and provocative study develops a powerful criticism of the libertarian forms of liberal individualism which have risen to prominence and suggests that by taking this term

for granted theorists have exaggerated the unity and integrity of liberal political ideals and limited our perception of the issues they raise

the politics of individualism demonstrates how individualist attitudes drastically reduce the possibility that people will defer to the decisions and practices of civic and political institutions therefore threatening the stability of democratic society modern american justifications for individual decisions are often rooted in skepticism toward authority and the influence of social institutions examining this moral dimension of individualism political scientists christopher f karpowitz and kelly d patterson argue that attachment to this form of the individualist attitude poses significant risks to the maintenance of democratic practices and institutions

this work in an effort to serve the lord jesus christ in his church demonstrates how christians ought to have a sound theology surrounding biblical commitment to christ s visible body this topic includes the privileges and benefits of church membership under the commands of christ church membership is a topic sorely neglected in today s contemporary church culture from today s modern vantagepoint such a topic detracts

from the attractiveness of the contemporary church in this detraction the church growth movement has quickly cultivated a memberless church a rejection of a real commitment to christ and has appealed and marketed this new brand of false teaching to the individual christian individualism can become sinful very quickly the sin of individualism is always evolving to cope with society s current trends and attempts to market the church and the gospel in a humanistic manner such a view gives a license to people to dictate how they may or may not live within the bounds of christ s visible covenant body both in the context of their own lives and also within the local assembly of christ s mystical body christians are to be biblically committed to christ s divine oversight which includes the directives and regulations he has laid down concerning his visible body in the world under this theological doctrine of covenanting we find the need for understanding what the visible body of christ actually is how gospel unity contributes to its health what need there is for unified public prayer how one is to support the church financially what worship in the church contributes to the health of the church and how membership to a local body is an important element to the overall well being of church polity and governance
