Bimal D. Theophilus and Ralph Rapley provide biological and clinical investigators with a comprehensive collection of new recent and updated PCR based screening methods suitable for detecting the presence of both known and novel mutations. The methods cover point mutations e.g. also PCR-SSCP, DGGE, chemical cleavage, deletions, multiplex PCR, fish blotting, non-sense mutations, pTT and more. The new and exciting techniques of DNA array analysis along with such recently developed experimental methods as conformation sensitive gel electrophoresis are also included. Each chapter explains the basic theory behind the technique and provides valuable notes essential for its successful execution.

Metal protectin including both metal treatments and coating systems affords mutual protection for both can and contents. This book is the first reference to meld the knowledge of chemical companies and canmaking companies covering materials and processes used in both protective and decorative aspects of metal packaging. Topics include basic substrates, aluminum and steel, demands of the markets served, basic metal forming processes and the specific decorative and protective needs of different packaging types. With emphasis given to the technologies most likely to be used such as ultraviolet curing, this practical reference gives readers a background and familiarity with terminology and

technology and gives insight into why certain technologies are used over others

ranging from the highly professional global players who buy and fill billions of cans to family concerns in third world countries where hundreds or even thousands of cans may be filled can fillers around the world operate at many different levels of sophistication canmaking for can fillers addresses the enterprise of canmaking it discusses what is possible and what is not and it explains why a particular container may be appropriate in some markets but not in others the material also explores potential developments in the canmaking industry this book is a tremendously valuable reference for packaging technologists in food and beverage companies buyers of packaging in these companies and designers of structural packaging
