one historian s journey to find the end of the civil war and along the way to expand our understanding of the nature of war itself and how societies struggle to draw the line between war and peace we set out on the james river march 25 1865 aboard the paddle steamboat river queen president lincoln is on his way to general grant s headquarters at city point virginia and he s decided he won t return to washington until he s witnessed or perhaps even orchestrated the end of the civil war now it turns out more than a century and a half later historians are still searching for that end was it april 9 at appomattox as conventional wisdom holds where lee surrendered to grant in wilmer mclean s parlor or was it ten weeks afterward in galveston where a federal commander proclaimed juneteenth the end of slavery or perhaps in august of 1866 when president andrew johnson simply declared the insurrection is at an end that the answer was elusive was baffling even to a historian of the stature of michael vorenberg whose work served as a key source of steven spielberg s lincoln vorenberg was inspired to write this groundbreaking book finding its title in the peace lincoln hoped for but could not make before his assassination a peace that required not one but many endings as vorenberg reveals in these pages the most important of which came well more than a year after lincoln s untimely death to say how a war ends is to suggest how it should be remembered and vorenberg s search is not just for the civil war s endpoint but for its true nature and legacy so essential to the american identity it s also a quest in our age of forever wars to understand whether the united states s interminable conflicts of the current era have a precedent in the civil war and whether in a sense wars ever end at all or merely wax and wane
