this book is about the deceptively simple question when hindu devotional or bhakti traditions welcomed marginalized people women low castes and dalits were they promoting social equality this the modern formulation of the bhakti caste question it is what dalit leader b r ambedkar had in mind when he concluded that the saints promoted spiritual equality but did not transform society while taking ambedkar s judgment seriously when viewed in the context of intellectual history and social practice the bhakti caste question is more

complex this book dives deeply in marathi sources to explore how one tradition in western india worked out the relationship between bhakti and caste on its own terms food and eating together were central to this as stories about saints and food changed while moving across manuscripts theatrical plays and films the bhakti caste relationship went from being a strategically ambiguous riddle to a question that expected and received answers shared devotion shared food demonstrates the value of critical commensality to understand how people carefully negotiate their ethical ideals with social practices food s capacity to symbolize many things made it made an ideal site for debating bhakti s implications about caste differences in the vārkarītradition strategically deployed ambiguity and the resonating of stories across media over time developed an ideology of inclusive difference not social equality in the modern sense but an alternative holistic view of society
