intergenerational solidarity is a vital element of societal relationships that ensures survival of humanity it connects generations fostering transfer of common values cumulative knowledge experience and culture essential to human development in the face of global aging changing family structures family separations economic insecurity and political trends pitting young and old against each other
intergenerational solidarity is now more than ever a pressing need
intergenerational solidarity in children's literature and film argues that productions for young audiences can stimulate intellectual and emotional connections between generations by representing intergenerational solidarity for example one essayist focuses on disney films which have shown a long time commitment to variously highlighting and then conservatively healing fissures between generations however disney pixar's up and coco instead portray intergenerational alliances young collaborating with old the living working alongside the dead as necessary to achieving goals the collection also testifies to the cultural social and political significance of children's culture in the development of generational intelligence and empathy towards age others and positions the field of children's literature studies as a site of intergenerational solidarity opening possibilities for a new socially consequential inquiry into the culture of childhood
