how natural history made sex scientific in the eighteenth century if sexology the science of sex came into being sometime in the nineteenth century then how did statesmen scientists and everyday people make meaning out of sex before that point in the natural history of sexuality in early america greta lafleur demonstrates that eighteenth century natural history the study of organic life in its environment actually provided the intellectual foundations for the later development of the scientific study of sex natural historians understood the human body to be a porous envelope eminently vulnerable to its environment yet historians of sexuality have tended to rely on archival evidence of genital based or otherwise bodily sex acts for

source material through careful readings of both elite natural history texts and popular print forms that circulated widely in the british north american colonies among them barbary captivity execution cross dressing and anti vice narratives lafleur traces the development of a broad knowledge of sexuality defined in terms of the dynamic relationship between the human and the natural social physical and climatic milieu at the heart of this book is the question of how to produce a history of sexuality for an era in which modern vocabularies for sex and desire were unavailable lafleur demonstrates how environmental logic was used to explain sexual behavior on a broad scale not just among the educated elite who wrote and read natural historical texts lafleur reunites the history of sexuality with the history of race demonstrating how they were bound to one another by the emergence of the human sciences ultimately the natural history of sexuality in early america not only rewrites all dominant scholarly narratives of eighteenth century sexual behavior but also poses a major intervention into queer theoretical understandings of the relationship between sex and the subject

in the early decades of the twenty first century we are grappling with the legacies of past centuries and their cascading effects upon children and all people we realize anew how imperialism globalization industrialization and revolution continue to reshape our world and that of new generations at a volatile moment this collection asks how twenty first century literature and related media represent and shape the contemporary child childhood and youth because literary representations construct ideal childhoods as well as model the rights privileges and respect afforded to actual young people this collection surveys examples from popular culture and from scholarly practice chapters investigate the human rights of children in literature and international policy the potential subjective agency and power of the child the role models proposed for young people the diverse identities children embody and encounter and the environmental well being of future human and nonhuman

generations as a snapshot of our developing historical moment this collection identifies emergent trends considers theories and critiques of childhood and literature and observes how new technologies and paradigms are destabilizing past conventions of storytelling and lived experience

by way of essays and a selection of primary sources in parallel text biography historiography and modes of philosophizing provides an introduction to a vast significant but neglected corpus of early modern literature collective biography it focuses especially on the various related strands of political philosophical and intellectual and cultural biography as well as on the intersection between biography historiography and philosophy individual texts from the fifteenth to the eighteenth century are presented as examples of how the ancient collective biographical tradition as represented above all by plutarch suetoniuss diogenes laertius and jerome was received and transformed in the renaissance and beyond in accordance with the needs of humanism religious controversy politics and the development of modern philosophy and science
