many texts attempt to bridge theory and research they include one or two pages dealing with important theorists jung adler freud et al inserted into chapters focused on academic studies in most cases the discussion fails to do justice to the theorists and the relationship between the ideas and the empirical work is often tenuous at best this book takes a different approach an alternative to ewen s an introduction to theories of personality this book features a chapter on each major type of theory followed by a separate chapter reviewing the relevant research controversies and emerging findings although it incorporates material from the previous text there are substantial differences personality a topical approach devotes more attention to psychological research and considerably less attention to the more minor and abstruse aspects of various theories chapters are devoted to the following theories psychoanalytically oriented tait cognitive self humanistic and behaviorism while the book emphasizes major research foci the big five personality factors self efficacy self esteem and more it also includes a chapter on research methods and coverage of issues often omitted from other texts such as dream interpretation cognitions and the holocaust scientific inquiry and near death experiences the book also provides study questions a help section and a glossary

the increasing use and the continuous development of pesticides are required to maintain sufficient global food production the pesticide residues and their biotic and abiotic breakdown products may be harmful to the environment and may leach into waterways thus it is crucial that the interactions of pesticides with microorganisms are deeply understood at all levels pesticides reach the soil via direct and indirect routes the fate of the pesticides in the soil is affected by chemical physical and microbiological factors microbial degradation of pesticides in soil is possible owing to the diverse metabolic capabilities of the

microorganisms present thus indigenous microbes act as biocatalysts for the remediation of the pesticides from the environment the research topic will cover novel insights into microbial pesticide degradation with specific attention to the microbe pesticide interactions in soil to date researchers have focused on the degradation of pesticides using indigenous microbes with different degradation rate there is scant information about the degradation intermediates metabolic pathways enzymes and complete set of factors involved into the microbes inhabiting into the pesticides contaminated soil therefore this research topic aims to contribute to the understanding of the role of microbes in pesticide degradation in soil since pesticide exposure may result in stress responses in the microbial population of the soil there is also a need to know about the impact of pesticides on the microbial cell structure membrane transporters cellular content metabolic pathways and gene expression we are interested in reports of novel metabolic pathways expression of the key genes in response to pesticide exposure and the changes in microbial physiology caused by pesticide exposure the removal of the pesticides from the soil requires smart microbial methods that can reduce the pesticides concentration in a short time the development of the smart bioremediation methods includes the direct application of the potential screened microbial strains and their enzymes the immobilized microbial strains and their enzymes can be used for the rapid removal of the toxic pesticides from the soil environment in addition engineering of the microbial consortia can be developed as the potential smart bioremediation tool papers on single isolates or microbial communities are welcome as are reports of novel genes enzymes or metabolites that might be used as markers of soil contamination we would especially welcome manuscripts describing the application and development of smart soil bioremediation approaches that could be beneficial for the treatment of large scale contaminated agricultural and industrial soils the research topic is of immediate interest to scientists and policy makers and frontiers in microbiology is an ideal forum for a collection of novel high impact reports the following themes are welcomes but not limited to novel advancements into the microbe pesticide interactions to clean the pesticide contaminated soil high throughput screening of the potential bacterial fungi and algae strains for the removal of pesticides from the contaminated soil smart soil bioremediation using indigenous microbial cultures and their purified enzymes microbial enzymes a smart tool for

bioremediation of the soil engineering of the microbial consortia for the complete pesticides removal and resource recovery

the spectre and fear of another terrorist attack looms large for most of the world's citizenry and for the domestic law agencies charged with protecting these citizens and countries this book explores how various countries have dealt with or are dealing with homeland security in the aftermath of terrorist attacks such as 9/11 the underground tube attacks in London in 2005 the Madrid train bombing in Spain and compares global approaches and lessons to the US and the world this unique study looks at homeland security law and policy utilizing a comparative analysis methodology ideal for those interested in law and security

bed semester ii pedagogy of English

the encyclopedia of crime and punishment provides the most comprehensive reference for a vast number of topics relevant to crime and punishment with a unique focus on the multi interdisciplinary and international aspects of these topics and historical perspectives on crime and punishment around the world named as one of Choice's outstanding academic titles of 2016 comprising nearly 300 entries this invaluable reference resource serves as the most up to date and wide ranging resource on crime and punishment offers a global perspective from an international team of leading scholars including coverage of the strong and rapidly growing body of work on criminology in Europe Asia and other areas acknowledges the overlap of criminology and criminal justice with a number of disciplines such as sociology psychology epidemiology history economics and public health and law entry topics are organized around 12 core substantive areas international aspects multi interdisciplinary aspects crime types corrections policing law and justice research methods criminological theory correlates of crime organizations and institutions US victimology and special populations organized authored and edited by leading scholars all of whom come to the project with exemplary track records and international standing 3 volumes crimeandpunishmentencyclopedia.com

this book aims to meet the need for an accessible introductory text on comparative criminal justice examining the ways different countries and jurisdictions deal with the main stages

and elements in the criminal justice process from policing through to sentencing examples are taken from all over the world with a particular focus on europe the uk the united states and australasia the main aims of the book are to provide the reader with a comparative perspective on criminal justice and its main components an understanding of the increasing globalization of justice and standards of the administration of justice a knowledge of methodology for comparative research and analysis an understanding of the most important concepts in criminal justice such as inquisitorial and adversarial trial systems policing styles crime control versus due process retribution versus rehabilitation etc discussion of global trends such as the rise of imprisonment penal populism diversion international policing and international tribunals an insight into what the essential ingredients of doing justice might be this fully updated and expanded new edition of comparative criminal justice takes into account the considerable advances in comparative criminal justice research since the first edition in 2004 each chapter has been thoroughly updated and in addition there is a new chapter on establishing the rate of crime in a comparative context the rate of development in international policing and international development has been such that there is now an individual chapter devoted to each and throughout the book the role of globalization changing both the local and the global in criminal justice arrangements orientations and discourses has now been given the prominence it deserves

socio legal researchers increasingly recognise the need to employ a wide variety of methods in studying law and legal phenomena and the need to be informed by an understanding of debates about theory and method in mainstream social science the papers in this volume illustrate how a range of topics including eu law ombudsmen judges lawyers shariah councils and the quality assurance industry can be researched from a socio legal perspective the objective of the collection is to show how different methods can be used in researching law and legal phenomena how methodological issues and debates in sociology are relevant to the study of law and the importance of the debate between structural and action traditions in researching law it also approaches the methodological problem of how sociology of law can address the content of legal practice from a variety of perspectives and discusses the relationship between pure and applied research the editors provide a critical introduction to each of the six sections and a general introduction on law sociology and method the

collection will provide an invaluable resource for socio legal researchers law school researchers and postgraduates

the revised and updated 2nd edition of handbook of contemporary preaching is a comprehensive textbook on preaching and teaching the bible pastors will be better equipped after reading and learning from some of the most notable scholars and pastors on the topic of preaching

in this pathbreaking volume muncie and goldson bring together leading authors to examine and compare youth justice systems around the world comparative youth justice will be of interest to all criminologists concerned with comparative penal policy and will be essential to all scholars of youth justice professor tim newburn london school of economics and political science and president of the british society of criminology comparative youth justice is what we need in an era of hardening social policies and irresponsible political demagoguery thoughtful critiques comparative analysis and a commitment to the rights of youth john muncie and barry goldson have done a fine job of bringing together a group of commentators who know the inner workings of juvenile justice and what it will take to change the current law and order model a book that is required reading for practitioners professors policy makers researchers and students concerned about the bankrupt state of juvenile justice and willing to consider new ideas and directions tony platt california state university sacramento with contributions from leading commentators from 13 different countries this carefully integrated edited collection comprises the most authoritative comparative analysis of international youth justice currently available however comparative youth justice is not simply an attempt to document national similarities and differences but looks critically at how global trends are translated at the local level this book also examines how youth justice is implemented in practice with a view to promoting change as well as reflection each chapter addresses key critical issues the degree of compliance with international law the extent of repenalisation adulteration tolerance the impact of experiments in restoration and risk management this book is designed as a companion volume to youth crime and justice edited by barry goldson and john muncie published simultaneously by sage publications this is a brilliant set of edited volumes that will be an indispensable and timely source of information

and analysis for anyone with an interest in issues of youth justice and comparative criminology david a green oxford university

textbook of human development a lifespan development approach
