find out what connects logic and humor in this alternative guide to logical reasoning combining jokes stories and ironic situations stan baronett shows how it is possible to ground the language of logic in everyday experience each chapter introduces a basic logical reasoning concept based on happenings in daily life using jokes as his examples baronett reveals the inner workings of logic after all an effective joke often relies on an unanticipated assumption that leads to an unexpected result the assumption changes the normal context of an everyday situation so we are surprised by the ending a complex mind that learns from experience and builds a storehouse of

regularly recurring patterns is a great survival tool but for a joke to work the punch line has to be something our minds don't logically anticipate the ending jolts our minds for a split second while we grasp the absurdity of the situation this is how logic works one part of your mind determines whether the information you are receiving is true or false while another part of your mind deals with logical consequences injecting a sense of humor into logical language baronett helps us understand how to analyze basic logical reasoning and provides light relief for anyone daunted by the complex world of logic

after the nineteenth century turn from idealism when idealist philosophies were largely abandoned for materialist ones many analytic philosophers have adhered to scientific naturalism as the new orthodoxy largely due to the success of scientific advancements the new atheists such as daniel dennett and richard dawkins claim it is darwin who deserves much of the credit for repudiating the traditional mind first world view in the implications of evolution for metaphysics theism idealism and naturalism david h gordon explores questions such as is it true that evolution is incompatible with theism and necessarily results in naturalism is it possible as naturalism maintains that everything can be reduced to physical processes or are there too many recalcitrant phenomena that defy reduction can the epistemological conditions for metaphysical knowledge be met if the underdetermination of theory allows for multiple metaphysical theories to cover the same phenomena with each offering an epistemically adequate explanation then neither naturalism nor theism can be asserted to be objectively true nevertheless it is possible to favor one over the other based on overall coherence and explanatory power
