following the warm reception given to the idea of education a volume of papers in this same rodopi series a second conference around similar themes was held at oxford university and this book is the result this edited book provides the reader with a fairly representative coherent and cohesive statement of the 2003 oxford conference quoting the chancellor of paris university with regretting that in the old days lectures were more frequent but now the time taken for lectures is being spent in meeting and discussions our keynote frank mcmahon made the profound observation that some of the issues around education have been with us for a surprisingly long time notwithstanding the longevity of some questions concerning education this book details and examines contemporary educational practice and theory and as such it is a very important work

as cartoonist author public speaker blogger and periscoper scott adams has had best sellers in several different fields his dilbert cartoons his meditations on the philosophy of dilbert his works on how to achieve success in business and all other areas of life his two remarkable books on religion and now his controversial work on political persuasion adams s two most recent best sellers are how to fail at almost everything and still win big kind of the story of my life 2014 and win bigly persuasion in a world where facts don t matter 2017 adams predicted donald trump s election victory on august 13th 2016 and has explained then and more recently how trump operates as a master persuader using weapons grade persuasive techniques to defeat his opponents and often to stay several moves ahead of them adams has provocative ideas in many areas for example his outrageous claim that 30 percent of the population have absolutely no sense of humor and take their cue from conventional opinion in deciding whether something is a joke since they have no way of deciding this for themselves in scott adams and philosophy an elite cadre of people who

think for a living put scott adams s ideas under scrutiny every aspect of adams s fascinating and infuriating system of ideas is explained and tested among the key topics does humor inform us about reality do religious extremists know something the rest of us don t what are facts and how can they not matter what happens when confirmation bias meets cognitive dissonance how can we tell whether president trump is a genius or just dumb lucky does the dilbert philosophy discourage the struggle for better workplace conditions how sound is adams s claim that systems thinking beats goal directed thinking does dilbert exhibit a nietzschean or a kierkegaardian sense of life or is it sisyphian in camus s sense can truth be over rated the political side that is out of power is the side that hallucinates the most if there s a serious chance we re living in a matrix type simulation how should we change our behavior are most public policy issues just too complex and technical for most people to have an opinion about in politics says adams it s as if different people watch the same movie at the same time some thinking it s a romantic comedy and others thinking it s a horror picture how is that possible does logic play any part in persuasion

writing well and persuasively is not only a discipline that can be learned it is one deeply rooted in the classical arts of rhetoric and polemic this book introduces the essential skills rules and steps for producing effective political prose appropriate to many contexts from the editorial the op ed and the polemical essay to others both weighty and seemingly slight

in the third volume of the digital hand james w cortada completes his sweeping survey of the effect of computers on american industry turning finally to the public sector and examining how computers have fundamentally changed the nature of work in government and education this book goes far beyond generalizations about the information age to the specifics of how industries have functioned now function and will function in the years to come cortada combines detailed analysis with narrative history to provide a broad overview of computings and telecommunications role in the entire public sector including federal state and local governments and in k 12 and higher education beginning in 1950 when commercial applications of digital technology began to appear cortada examines the unique ways different public sector industries adopted new technologies showcasing the manner in which their innovative applications influenced other industries as well as the u s economy as a whole he builds on the surveys presented in the first volume of the series which examined sixteen manufacturing process transportation wholesale and retail industries and the second

volume which examined over a dozen financial telecommunications media and entertainment industries with this third volume the digital hand trilogy is complete and forms the most comprehensive and rigorously researched history of computing in business since 1950 providing a detailed picture of what the infrastructure of the information age really looks like and how we got there managers historians economists and those working in the public sector will appreciate Cortada's analysis of digital technology's many roles and future possibilities

grounded in basic political science research yet readily accessible to undergraduates promise and performance uses the title's theme as an organizing framework for studying American politics the promise of democracy is analyzed using four core values popular sovereignty political freedom political equality and majority rule minority rights and is further explored in several new features including living the promise and promise and policy boxes the performance part of the theme is then integrated with an assessment at the end of every chapter along with a concluding policy chapter solid scholarship and writing makes this an ideal text not just for reading and learning but also as an example of how political science is researched and written by the practitioners in academia

this new textbook seeks to explain how US defense and national security policy is formulated and conducted the focus is on the role of the president congress political partisans defense industries lobbies science the media and interest groups including the military itself in shaping policies it examines the following key themes US grand strategy who joins America's military how and why weapons are bought the management of defense public attitudes toward the military and casualties the roles of the president and the congress in controlling the military the effects of 9/11 on security policy homeland security government reorganizations and intra and inter service relations the book shows how political and organizational interests determine US defense policy and warns against the introduction of centralising reforms in emphasizing the process of defense policy making rather than just the outcomes of that process this book signals a departure from the style of many existing textbooks
