generous moving and alive a gift tim dee author of greenery intelligent thought provoking and always always interesting cal flynn author of islands of abandonment smyth writes with warmth and engaging perception about our relationship and understanding of the natural world on our doorsteps jon dunn author of the glitter in the green fresh and tender and playful patrick galbraith author of in search of one last song weren't they richer rock pools wasn't the seashore busier when i was a kid richard smyth had always been drawn to the natural world but when he became a father he found a new joy and a new urgency in showing his kids the everyday wild things around them as he and his children explore rockpools in whitley bay or the woods and moors near his yorkshire home he imagines the world they might inhabit as they grow up through different objects discovered on their wanderings a beech leaf a jay feather a limpetshell smyth examines his own past as well as that of the early natural historians weaving together history memoir and environmentalism to form a new kind of nature writing one that asks both what we have lost and what we have yet to find

throughout the history of rugby union a select few players have stood out above the rest bringing together 50 of the finest this book reveals the fearless scrum halves tricky wingers explosive centres and powerful props that have lit up the game celebrating their achievements and controversially ranking them in order of greatness is the might of jonah lomu preferred to the vision of david campese who was more influential jonny or johnno which hemisphere has produced the most superstars and most importantly who will be named the greatest player of all time passionately argued provocative and sure to trigger lively debate this book is a must read for rugby fans everywhere published in time for the six nations 2016 and fully updated following the 2015 rugby world cup hosted in england

machu picchu the acropolis the great rift valley these are some of the most beautiful mysterious and awe inspiring places on the planet award winning travel writer aaron millar reveals the greatest wonders of the world and the insider secrets on how to see them from where to catch the perfect sunrise over the grand canyon to how to swim up to the very edge of the victoria falls this is a road map for discovering the greatest experiences of your life there are wonders of our future too the large hadron collider the most complicated machine ever built the international space station the greatest international peacetime collaboration in history the rio carnival the biggest party on the planet the 50 greatest wonders of the world reminds us how fantastically inspiring our planet really is and how we re a part of it

imagine freewheeling through tufted french vineyards scaling the rocky cloud topped tracks in the himalayas or rattling past whitewashed sugar cube houses in narrow spanish valleys from surviving the peaks of the yorkshire dales to tackling truly hair raising descents in rural cuba the sheer variety of routes in the 50 greatest bike rides of the world will have you reaching for your bicycle clips helmet and gloves sarah woods tells tales of scenic single tracks switchback climbs and routes newly discovered from around the world each with valuable tips and details to satisfy every cycling enthusiast it s time to get those panniers packed and sprockets checked and to climb into the saddle

record rain fall and extreme climates have become a common occurrence around the world the television news shows farmers standing in front of their flooded fields the ground too wet to harvest one season s crop or to plant the next our climate is changing but agriculture is not just the victim of climate change it is one of the major drivers too our food systems are responsible for around a third of all greenhouse gases in this book sarah bearchell explores how agriculture is using targeted breeding automation and precision inputs to produce more with less she considers how we can reduce our impact by addressing problems in our food system from packaging and transport to the incredible quantities of waste as consumers we can

make small changes straight away and push for long term change in the wider system agriculture can become a force for good but it needs our help

peter pugh presents his selection of not the best fastest most successful or richest but the 50 most influential british men and women of the modern world for good or ill pugh discusses and ranks the influence of scientists and inventors such as francis crick john logie baird and alan turing lawmakers and leaders like prime ministers attlee churchill and thatcher entrepreneurs including james dyson mary quant and terence conran and cultural icons like j k rowling who in the words of lisa simpson no less turned a generation of kids onto reading one of the most influential britons in pugh s book achieved influence by saying nothing for over 60 years and the top three places are held by an economist a scientist and a civil servant in what amounts to a whistle stop tour through recent british history this undoubtedly contentious and wholly enjoyable book will spark countless debates across our sceptred isle

greenland a remote mysterious ice covered rock with a population of just 56 000 has evolved from one of earth s last physical frontiers to its largest scientific laboratory locked within that vast white desert are some of our planet s most profound secrets as the arctic climate warms and greenland s ice melts at an accelerating rate the island is evolving into an economic and climatological hub on which the future of the world turns journalist and historian jon gertner reconstructs in vivid thrilling detail the heroic efforts of the scientists and explorers who have visited greenland over the past 150 years on skis sleds and now with planes and satellites utilising every tool available to uncover the pressing secrets revealed by the ice before thanks to climate change it s too late this is a story of epic adventures populated by a colourful cast of scientists racing to get a handle on what will become of greenland s ice and ultimately the world

cristiano ronaldo is one of football s all time greats a fifa ballon d or winner with pace trickery and extraordinary goalscoring ability driven by an insatiable desire to be the best he possibly can he has inspired first manchester united and then real madrid to some of the proudest achievements in each club s recent history and continues to push himself on to greater things each season luca caioli author of the bestselling messi tells the inside story of this global superstar both on and off the pitch featuring insights from those who know him best coaches teammates girlfriends and even the man himself ronaldo is a unique behind the scenes look at a true great of the game updated to include the turbulent yet brilliant 2012 13 campaign

cristiano ronaldo is known throughout the world for his devastating ability and his carefully crafted image a two time ballon d or winner with his own fashion label he is every inch the modern superstar but behind the glamour lies one of the most

dedicated athletes the sport has ever known luca caioli author of the bestselling messi tells the inside story of the real madrid star whose determination has driven him to the very top of his game featuring insights from those who know him best coaches teammates girlfriends and even the man himself updated to include all the action from his hugely successful 2013 14 campaign ronaldo offers a unique behind the scenes look at one of football's all time greats

actor producer and director ben crystal revisits his acclaimed book on shakespeare for the 400th anniversary of his death updating and adding three new chapters shakespeare on toast knocks the stuffing from the staid old myth of the bard revealing the man and his plays for what they really are modern thrilling uplifting drama the bright words and colourful characters of the greatest hack writer are brought brilliantly to life sweeping cobwebs from the bard his language his life his world his sounds his craft crystal reveals man and work as relevant accessible and alive and astonishingly finds shakespeare's own voice amid the poetry whether you're studying shakespeare for the first time or you've never set foot near one of his plays but have always wanted to this book smashes down the walls that have been built up around this untouchable literary figure told in five fascinating acts this is quick easy and good for you just like beans on toast

we need effective citizen lobbyists not just likers followers or even marchers more than ever i have no hesitation in lobbying you to read this book bill emmott former editor in chief the economist many democratic societies are experiencing a crisis of faith citizens are making clear their frustration with their supposedly representative governments which instead seem driven by the interests of big business powerful individuals and wealthy lobby groups what can we do about it how do we fix democracy and get our voices heard the answer argues alberto alemanno is to become change makers citizen lobbyists by using our skills and talents and mobilizing others we can bring about social and political change whoever you are you've got power and this book will show you how to unleash it from successfully challenging facebook's use of private data to abolishing eu mobile phone roaming charges alberto highlights the stories of those who have lobbied for change and shows how you can follow in their footsteps whether you want to influence immigration policy put pressure on big business or protect your local community

the quest to find a theory of quantum gravity that could potentially explain everything nearly 60 years ago nobel prize winners arno penzias and robert wilson stumbled across a mysterious hiss of faint radio static that was interfering with their observations they had found the key to unravelling the story of the big bang and the origin of our universe that signal was the cosmic microwave background cmb the earliest light in the universe released 379 000 years after the big bang it contains

secrets about what happened during the very first tiny increments of time which had consequences that have rippled throughout cosmic history leading to the universe of stars and galaxies that we live in today this is the enthralling story of the quest to understand the cmb radiation and what it can tell us of the origins of time and space from bubble universes to a cyclical cosmos and possibly leading to the elusive theory of quantum gravity itself

an original wide ranging and carefully researched book contains important lessons for humanity mark cocker the spectator a fascinating insight into climate change biology around the globe as well as in our own backyards hurricane lizards and plastic squid is the first major book by a biologist to focus on the fascinating story of how the natural world is adjusting adapting and sometimes measurably evolving in response to climate change lyrical and thought provoking this book broadens the climate focus from humans to the wider lattice of life bestselling nature writer thor hanson author of buzz a radio 4 book of the week shows us how caribbean lizards have grown larger toe pads to grip trees more tightly during frequent hurricanes and how the plasticity of squid has allowed them to change their body size and breeding habits to cope with altered sea temperatures plants and animals have a great deal to teach us about the nature of what comes next because for many of them and also for many of us that world is already here
