the issue of race appears at various points in Kant's writing he dedicated three essays to developing a theory of human races in 1775 1785 and 1788 he made racist remarks in those and many other texts the issue of race and racism in Kant's work gained renewed attention in the wake of the post-Floyd Black Lives Matter movement in 2020 it is not enough simply to acknowledge that Kant held racist views nor should it be taken for granted that we can insulate the supposed core of Kant's philosophy from those views we need to explore the possibility that those views may be integral to Kant's entire philosophical system if it turns out that race is more central to Kant's thought than previously assumed we need to figure out how to reckon with the effects of his race thinking the contributions contained in this volume investigate these pressing issues
