the concepts of particular and universal have become so familiar that their significance has become difficult to discern like coins that have been passed back and forth too many times worn smooth so their values can no longer be read on the genealogy of universals seeks to overcome our sense of over familiarity with these concepts by providing a case study of their evolution during the late 19th century and early 20th century a study that shows how the

history of these concepts is bound up with the origins and development of analytic philosophy itself understanding how these concepts were taken up transfigured and given up by the early analytic philosophers enables us to recover and reanimate the debate amongst them that otherwise remains delphic to interpret some of the early originating texts of analytic philosophy that have hitherto baffled commentators including moore s early papers to appreciate afresh the neglected contributions of philosophical figures that historians of analytic philosophy have mostly since forgot including stout and whitehead and to shed new light upon the relationships of moore to russell and russell to wittgenstein

pp 52

this two volume set is part of a growing body of literature concerned with the history of biblical interpretation the ample introduction first situates key players in the story of the development of the major strands of biblical interpretation since the enlightenment identifying how different theoretical and methodological approaches are related to each other and describing the academic environment in which they emerged and developed volume 1 contains fourteen essays on twenty two interpreters who were principally active before 1980 and volume 2 has nineteen essays on twenty seven of those who were active primarily after this date each chapter provides a brief biography of one or more scholars as well as a detailed description of their major contributions to the field this is followed by an often new application of the scholar s theory by focusing on the individual scholars and their work the book recognizes that interpretive approaches arise out of certain circumstances and that scholars are influenced by and have influences upon both other interpreters and the times in which they live this set is ideal for any class on the history of biblical interpretation and for those who want a greater understanding of how the current field of biblical studies developed

practical guide to partnerships and llcs 3rd edition by robert ricketts and larry tunnell discusses the complex issues involving partnership taxation with utmost clarity it uses hundreds of illustrative examples practice observations helpful charts and insightful explanations to make even the most difficult concepts understandable the book reflects the authors penchant for communicating the pertinent facts in very direct language and creating a context for understanding the multifaceted issues and applying them to practice
