the second decade of the 21st century brought unprecedented challenges to traditional workplaces forcing the advance of working from home telework due to a global virus pandemic individuals with little or no background or training in e leadership virtual project management or virtual team management suddenly found themselves in the environment of virtual work leading virtual project teams second edition addresses the challenges that today s virtual project management environment poses to traditional methods of leadership and communication leadership for successful virtual team management is different from traditional collocated project team management being familiar with appropriate e leadership styles for virtual project teams and the transition toward new leadership styles communication techniques for virtual project teams and e leadership competencies is an important part of managing projects and human resources in successful organizations today the second edition also examines virtual meeting techniques inclusive language managing virtual relationships why virtual work is now more important the work at home environment by recognizing how virtual teams are different from traditional teams those managing virtual projects may be able to offer benefits to their organization by providing positive successful leadership and exceptional communications resulting in better project deliverables and products this book provides an approach that explores all facets of e leadership from how traditional leadership theories and models can be applied by 21st century leaders to providing methods by which the virtual project manager can enhance virtual project communications to meet the needs of our modern global business world it features project management checklists and templates and includes business cases best practices and tools and techniques for virtual project management communications

it has been said that every generation of historians seeks to rewrite what a previous generation had established as the standard interpretations of the motives and circumstances shaping the fabric of historical events it is not that the facts of history have changed no one will dispute that the battle of waterloo occurred on june 11 1815 or that the allied invasion of europe began on june 6 1944 what each new age of historians are attempting to do is to reinterpret the motives of men and the force of circumstance impacting the direction of past events based on the factual social intellectual and cultural milieu of their own generation by examining the facts of history from a new

perspective today s historians hope to reveal some new truth that will not only illuminate the course of history but also validate contempo rary values and societal ideals although it is true that tackling the task of developing a new text on logistics and distribution channel management focuses less on schools of philosophical and social analysis and more on the calculus of managing sales campaigns inventory replenishment and income statements the goal of the management scientist like the historian is to merge the facts and figures of the discipline with today s organizational cultural and economic realities hopefully the result will be a new synthesis where a whole new perspective will break forth exposing new directions and opportunities
