the design and functioning of an information system improve to the extent that the system can handle the questions people ask surprisingly however researchers in the cognitive computer and information sciences have not thoroughly examined the multitude of relationships between information systems and questions both question asking and answering the purpose of this book is to explicitly examine these relationships chapter contributors believe that questions play a central role in the analysis design and use of different kinds of natural or artificial information systems such as human cognition social

interaction communication networks and intelligent tutoring systems their efforts show that data structures and representations need to be organized around the questioning mechanisms in order to achieve a quick retrieval of relevant useful information

refreshed with a new design oxford practice grammar is a three level english grammar practice series for the classroom or self study its tried and trusted methodology provides clear explanations and lots of extra practice oxford practice grammar knows that students need different types of explanation and practice at each stage of their study basic provides lots of practice and short explanations intermediate gives you more detail with extended practice advanced gives challenging practice activities and in depth explanations great for classroom or self study great downloadable resources to support you when using oxford practice grammar can be found at elt.oup.com/student/practicegrammar

research powers innovation and technoscientific advance but it is due for a rethink one consistent with its deeply holistic nature requiring deeply human nurturing research is a deeply human endeavor that must be nurtured to achieve its full potential as with tending a garden care must be taken to organize plant feed and weed and the manner in which this nurturing is done must be consistent with the nature of what is being nurtured in the genesis of technoscientific revolutions venkatesh narayanamurti and jeffrey tsao propose a new and holistic system a rethinking of the nature and nurturing of research they share lessons from their vast research experience in the physical sciences and engineering as well as from perspectives drawn from the history and philosophy of science and technology research policy and management and the evolutionary biological complexity physical and economic sciences narayanamurti and tsao argue that research is a recursive reciprocal process at many levels between science and technology between questions and answer finding and between the consolidation and challenging of conventional wisdom these fundamental aspects of the nature of research should be reflected in how it is nurtured to that end narayanamurti and tsao propose aligning organization funding and governance with research embracing a culture of holistic technoscientific exploration and instructing people with care and accountability

talk about god is often the source of controversy theists and atheists are equally passionate when making their stand for or against belief in god in this book a wide range of philosophers of religion have come together to discuss how serious talk about god ought to be conducted for theists and atheists alike in what should be their common pursuit for truth the essays both address methodological questions and provide a range of concrete samples of serious god talk spanning from political religion and classical proofs of god's existence to the problem of evil series nordic studies in theology nordische studien zur atheism vol 4 subject religious studies [?] [?] [?] [?]

this book provides guidance to researchers about how to develop interview skills that align with their theoretical assumptions connecting theory and method can be challenging for novice researchers interviewing a guide to theory and practice draws from and extends the author s earlier 2010 book and focuses on three interrelated issues how researchers theorize research interviews examine their subject positions in relation to projects and participants and explore the details of interview interaction to inform practice by developing these understandings of qualitative interview practice kathryn roulston shows how researchers can design and conduct quality research projects that draw on a wide range of interview practices to provide audience members and communities with significant findings concerning social problems

patients often are asked to fill out questionnaires before or after going to the doctor s office or hospital what is the point of these questionnaires why do the questions often seem irrelevant does it matter if patients fill them out or ignore them this book addresses these questions while also providing historical context about how these questionnaires became so popular these questionnaires which philosopher leah m mcclimans calls patient centered measures have a fascinating history that combines the contemporary emphasis in medical ethics on patient centered care with the contemporary preoccupation with evidence based medicine the idea that medical decisions should be based on empirical evidence patient centered measures sit between these two concerns and thus serve as an excellent example of a medical technology for the twenty first century

the indian state till recently denied information about its functioning and decision making to its citizens ironically using laws made during the colonial period apart from being an anomaly in a democratic set up it created an adverse impact on the quality of governance accountability and transparency it was only in 2005 after a prolonged freedom of information movement that this situation was finally rectified the government enacted the landmark right to information act 2005 and gave to all its citizens the right to access information held by or under the control of public authorities this handbook is meant to serve as a practical guide to the implementation of the act the book begins by locating the act in the context of a global movement for freedom of information foi and discusses the efforts made by international bodies for adoption of foi it also presents a detailed comparative study of foi in five countries the us the uk canada south africa and india in subsequent chapters the book adopting a step by step approach discusses the provisions of the right to information act how citizens should make use of the right to information the comprehensive guidelines for public authorities and their obligations under the act which includes relevant central information commission decisions the role of the public information officers pio who are to be appointed as per the provisions in the act by all public authorities the exemptions allowed under the act and finally the appellate authorities to whom a citizen can appeal in case of unsatisfactory response by the pio
