juan manuel s el conde lucanor was arguably one of the great masterworks of early modern spain although the work appears in five very

different manuscript versions from the fourteenth to the sixteenth centuries most modern editions of el conde lucanor have neglected to account for the fact that it was part of a manuscript tradition and that its meaning is substantially affected when its original forms are not taken in to account with manuscript diversity meaning and variance in juan manuel s el conde lucanor laurence de looze demonstrates how the meaning of juan manuel s work changes depending on how the work is performed in particular manuscripts this study proceeds from the assumption that in a pre printing press world each new copy or performance of a work creates new meaning by adopting this approach and by focusing on parts ii v of the texts de looze argues that el conde lucanor raises questions about the interpretation intelligibility and the production of knowledge de looze s complex and nuanced reading sheds new light on an important work and makes a significant contribution to medieval studies spanish studies and the history of the book

first published in 1961 a new history of spanish literature has been a much used resource for generations of students the book has now been completely revised and updated to include extensive discussion of spanish literature of the past thirty years richard e chandler and kessel schwartz both longtime students of the literature write authoritatively about every spanish literary work of consequence from the earliest extant writings through the literature of the 1980s they draw on the latest scholarship unlike most literary histories this one treats each genre fully in its own section thus making it easy for the reader to follow the development of poetry the drama the novel other prose fiction and nonfiction prose students of the first edition have found this method particularly useful however this approach does not preclude study of the literature by period a full index easily enables the reader to find all references to any individual author or book another noteworthy feature of the book and one omitted from many books of this kind is the comprehensive attention the authors accord nonfiction prose including for example essays philosophy literary criticism politics and historiography encyclopedic in scope yet concise and eminently readable the revised edition of a new history of spanish literature bids fair to be the standard reference well into the next century

the masterpieces of medieval spanish literature have come to be known and loved by hispanists and more recently by others throughout the world but the brilliant illuminations with which the original manuscripts were illustrated have remained almost totally unknown on the shelves of the great european libraries to redress this woeful neglect two noted scholars here present a generous selection from this great visual treasury including many examples never before reproduced john e keller and richard p kinkade have chosen five representative works dating from the mid thirteenth century to the late fifteenth to illustrate the richness of early spanish narrative art together these five works encompass the entire range of narrative techniques and iconography to be found in medieval spain and reflect both foreign and native spanish artistic tendencies the authors analyses of the relation between verbalizations and visualizations will provide students of medieval art and literature a

wealth of new information expanding our knowledge of this fascinating period the beauty of many of the illuminations speaks for itself

the present debate on the so called deuteronomistic history has become quite confusing and in recent years more and more scholars are inclined to deny the existence of a deuteronomistic history as elaborated by martin noth or at least to modify this thesis radically the contributions in this volume reflect the present state of discussion about the deuteronomistic history with one exception they have all been presented and discussed in three special sessions dedicated to deuteronomism during the sbl international meeting in lausanne july 1997 three topics were treated the future of the deuteronomistic history identity and literary strategies of the deuteronomists deuteronomism and the hebrew bible the contributors are r albertz a g auld m bauks w dietrich d edelman f garcia lopez e a knauf g knoppers s k mckenzie c nihan t c romer n h rosel j van seters and j vermeulen each contribution offers a valuable entry into one of the most important discussions of old testament scholarship at the end of the twentieth century

portraying authorship argues that the medieval castilian writer juan manuel fashioned a seemingly modern authorial persona from the accumulation and synthesis of medieval authorial roles in the manuscript culture of medieval castile and across latin europe writers typically referred to their work in ways that corresponded to their role in the bookmaking process scribes took credit for preserving the works of others compilers for combining disparate texts in productive ways commentators for explaining obscure works and authors for writing their own words combining literary analysis with book history anita savo reveals how juan manuel forged his authorial persona don juan by adopting all four medieval writerly roles thereby reaping the ethical benefits of each one each chapter in portraying authorship highlights a different authorial role to show how don juan and others who wrote in his name assumed responsibility for that role and adapted its rhetoric to his vernacular literary project the book concludes that don juan s authorial self portrait not only gave the humanist writers of the fifteenth century a model to imitate but also persuaded subsequent scribes editors and translators to portray him as an individual author in doing so portraying authorship illuminates how juan manuel s concept of authorship helped to secure him a privileged position in narratives of spanish literary history
