except for soviet citizens no people in this century have endured so much mass killing as have the chinese they have been murdered by rebels conniving with their own rulers and then after the defeat in war of the imperial dynasty by soldiers of other lands they have been killed by warlords who ruled one part of china or another they have been executed by nationalists or communists because they had the wrong beliefs or attitudes or were simply in the wrong place at the wrong time in china s bloody century r j rummel s careful estimate of the total number of killings exceeds 5 million how do we explain such killings crossing ideological bounds and political conditions according to rummel the one constant factor in all the chinese mass murder as it was in the soviet union and nazi germany is arbitrary power it was the factor that united warlords nationalists communists and foreign armies the author argues that whenever such undisciplined power is centralized and unchecked the possibility exists that it will be used at the whim of dictators to kill for their own ends whether the aim is ethnic racial purity national unity development or utopia the book presents successive periods in modern chinese history with each chapter divided into three parts rummel first relates the history of the period within which the nature and the amount of killings are presented he then provides a detailed statistical table giving the basic estimates with their sources and qualifications the final part offers an appendix that explains and elaborates the statistical computations and estimates while estimates are available in the literature on the number of chinese killed in communist land reform or in tibet or by the nationalists in one military campaign or another until this book no one has tried to systematically accumulate organize add up and analyze these diverse killings for all of china s governments in this century for the first time in one place hundreds of published estimates of chinese genocide and mass murder are listed with sources analyzed and their

historical context presented this book will be of central interest to sinologists sovietologists and those interested in comparative politics and society

this book explores how nuclear weapons influence conventional warfighting through three case studies of countries not party to the non proliferation treaty pakistan india and israel the author examines how decision makers choose a preferred pattern of war management as well as how these choices affect conflicts suggesting that nuclear weaponization constitutes a clear change in the relative power of countries this distribution of power within the international system expands or reduces the selection of strategies or war management patterns available to members of the international community however historic traumatic events like military defeats countries self images and images of enemies form the perceptions of decision makers regarding material power and change thereof suggesting that choices of decision makers are not affected directly by changes in relative power relations but rather through an intermediate level of strategic culture parameter

which citizens have fought america s wars which ones should fight in the future and how should they be recruited should military or other national service be an obligation for every citizen david segal s probing look at the complex issues behind these questions tells us much about the changing manpower needs of our armed forces and about the evolution of civil military relations in the united states segal analyzes the mobilization contributions and limitations of drafted reservist and volunteer forces from the early days of the republic to the present in the process he shows how americans have come to separate the benefits of citizenship from service to their country symptomatic of this separation is the current reliance on an all volunteer military a system that treats military service more as an occupation and opportunity for self advancement than as a civic duty and obligation drawing on a vast interdisciplinary literature in american history sociology political science and economics segal illuminates the ways demographics weapons technology international relations scientific management and social policies have all affected the composition of america s armed forces he also shows how the military anticipated and expanded the american welfare system and played a pivotal role in creating better opportunities for minorities and women the capabilities and performance of u s armed forces in future conflicts will depend on a thorough understanding of and informed response to the crucial manpower issues segal discusses his thoughtful study should be required reading for military professionals and policymakers and will be of interest to anyone concerned about the future of this country s armed forces

ellis wasson offers one of the first comprehensive studies of the european ruling class during the 19th and 20th centuries distilling a wealth of recent research wasson analyses the role of aristocracy in modern times focusing on the tensions that exist between egalitarian values and the way elites shape society wasson explodes myths and jettisons stereotypes in sweeping coverage that takes the story from the congress of vienna to

stalingrad the study recounts the change from the genteel world of court balls to café society and finally on to eurotrash it also contrasts the paradox of continued aristocratic social power and cultural leadership with the gradual decline in their political authority aristocracy and the modern world covers key topics such as the fabulous wealth of the great magnates the relationship between servants and masters interaction with the middle classes concepts of honour culture recreation and gender local authority and national power lively and authoritative the book reviews developments in scandinavia the austro hungarian empire france italy and spain as well as in britain germany and russia it is essential reading for all those with an interest in modern european history

this new edition of the volume is presented on the wave of the success which had its first edition 2003 it is entirely updated to the current situation of the disciplines covered and expanded with particular regard to the new missions that have become the main challenge for the armed forces in these first decades of the new millennium with new insights to technological development toward so called cyborg warriors new forms of leadership and changes in soldier s identity and organisational culture it is compiled of documents coming from various researchers at universities around the world as well as military officers devoted to the sector of study covered in this volume is a historical excursus of studies prior to contemporary research interpretive models and theoretical approaches developed specifically for this topic civic military relations including issues surrounding democratic control of the armed forces military culture professional training conditions and problems of minorities in the armed forces an examination of the structural change within the military over the years including new duties and functions following the cold war
