ferrell secakuku remembers the ancient farming rites of his hopi people but saw them replaced by a cash economy sheep rancher joe manterola recalls watching hard scrabble farms on what is now tree studded grassland on garland prairie navajo rose gishie once saw freshly dug holes fill with clean drinkable water where none rises today all over northern arizona people have seen the landscapes change and livelihoods with them in this remarkable book they share their stories thirteen narratives□from ranchers foresters scientists native american farmers and others□tell how northern arizona landscapes and livelihoods reflect rapid social and environmental change the twentieth century saw huge changes as arizona□s human population swelled and vacation home developments arose in the backcountry riparian areas dried up cattle ranching declined and some wildlife species vanished while others thrived the people whose words are preserved here have watched it all happen the book is a product of northern arizona university□s ecological oral histories project which has been collecting remembrances of long time area residents who have observed changes to the land from the 1930s to the present day it carves a wide swath from the arizona strip to the mogollon rim from valleys near prescott to the new mexico line it takes readers to the bar heart ranch north of williams and to the doy reidhead ranch southeast of holbrook to the forests of flagstaff and the mesas of indian country enhanced with more than fifty illustrations this book brings environmental change down to earth by allowing us to see it through the eyes of

those whose lives it has directly touched what has passed and what remains is a window on the past that carries important lessons for the future

reprint of the original first published in 1856 the antigonos publishing house specialises in the publication of reprints of historical books we make sure that these works are made available to the public in good condition in order to preserve their cultural heritage

succinct user friendly thoroughly referenced and prepared by leading experts in the field this book is the only single textbook you will need to succeed in the royal college of psychiatrists mrcpsych and other related higher examinations chapters follow the structure and syllabus of the examination ensuring that you receive the necessary essential information to pass and indeed succeed approachable and succinct text with colour illustrations and key summary points further help to clarify complex concepts and provide you with useful revision tools the evidence based approach used throughout is important to help you relate theory and research to clinical practice the book is carefully structured and sequenced to building upon the basic sciences underpinning psychiatry through to an in depth description of pharmacological and psychological treatments used

this research topic is a call for papers to provide an up to date assessment of current attempts to introduce tolerogenic therapies into clinical practice tolerance has been a highly sought after goal in the field of organ transplantation for over half a century and is now readily achievable in rodent models but considerable barriers remain to successfully translating tolerogenic treatments to the clinic the initial call for this research topic has been aimed to provide an overview of recent advances made within the european riset and american itn networks with regard to tolerogenic strategies in clinical transplantation autoimmune disease and allergy articles will also cover the barriers to clinical tolerance induction and new emerging approaches to overcome such barriers 1 collaborative networks working towards the goal of therapeutic tolerance induction 2 prope tolerance and minimization of

immunosuppression 3 lessons from operationally tolerant patients 4 targeted withdrawal of immunosuppression 5 stem cells and hematopoietic chimerism as a route to tolerance 6 promoting regulatory t cells 7 tolerogenic dendritic cells and negative vaccination 8 inhibitory pathways and mechanisms in tolerance 9 memory t cells and heterologous immunity 10 the innate response to allotransplants 11 chronic graft loss what are the missing links 12 the impact of graft microenvironment on tolerance

this unique volume provides in layman s terms without sacrificing scientific facts the health hazards and potential dangers of naturally occurring substances that are around us everyday the comprehensive coverage includes compounds e g arsenic lead gases e g hydrogen sulphide ozone and all forms of natural radiations e g heat radon readers will find this book both informative and entertaining because facts and important data are introduced and interpreted in the form of history stories and scientific summaries each chapter concludes with a practical guide that readers will find useful harmful naturally occurring substance and radiation which is fully referenced with up to date articles may be used as a textbook for undergraduates and as an introductory textbook for post graduates in biochemistry environmental science toxicology medical science and health care people interested in personal and public health and earth issues will find this book a thought provoking and revealing read the book may also be a source of information for policy makers public health officials city planners and environmental engineers

in the heart of a fool by william allen white published by good press good press publishes a wide range of titles that encompasses every genre from well known classics literary fiction and non fiction to forgotten or yet undiscovered gems of world literature we issue the books that need to be read each good press edition has been meticulously edited and formatted to boost readability for all e readers and devices our goal is to produce ebooks that are user friendly and accessible to everyone in a high quality digital format

this book advocates that teachers should play an active role in high stakes language testing and that more weight should be given to teacher judgement this is likely to increase the formative potential of high stakes tests and provide teachers with a sense of ownership the implication is that the knowledge and skills they develop by being involved in these tests will feed into their own classroom practices the book also considers the arguments against teacher involvement e g the contention that teacher involvement might entrench the practice of teaching to the test or that teachers should not be actively involved in high stakes language testing because their judgement is insufficiently reliable using contributions from a wide range of international educational contexts the book proposes that a lack of reliability in teacher judgement is best addressed by means of training and not by barring educators from participating in high stakes language testing it also argues that their involvement in testing helps teachers to bolster confidence in their own judgement and develop their assessment literacy moreover teacher involvement empowers them to play a role in reforming high stakes language testing so that it is more equitable and more likely to enhance classroom practices high stakes language tests that adopt such an inclusive approach facilitate more effective learning on the part of teachers which ultimately benefits all their students

in the life of the honey bee two young girls em and noel cope with the destructive fatal choices made by their mother during her life after her death their mother marian suffered great tragedies in her lifetime causing her to lose compassion for everyone including her own daughters marian born in the south and migrated north with her mother as an elementary aged child recovered from the brinks of insanity only to fall into ghastly grips of addiction and self destruction during happier times in her life marian conceived two children in very different manners marian tried to be a good mother until the weight of her past caught up with her not in the mental state to be a productive parent marian left much of the child rearing to her mother cecilia cecilia was a devout christian an excellent mother and a dutiful wife to the day of her husband s death after the death of her husband cecilia dedicated her life to raising her children successfully marian the baby of the family was the only of cecilia

s children who failed to live a long joyous happy christian life em suffered and noel witnessed much pain during the short time they were in their mother s care both girls lost their innocence before age ten they had seen too much to have the socio emotional intellect of girls their ages the wisdom both girls gained was fuel it fueled their very different paths to very different ends while em remained in the cycle of the generational curses that were the root causes of her mother s death noel embarked on a spiritual journey that helped her cope and survive with the loss and her pain of her life some people may consider noel s life and survival to be a miracle noel managed to stay strong and focused despite the bad she witnessed she always managed to do right and good to everyone in every situation

narrative psychiatry and family collaborations is about helping families with complex psychiatric problems by seeing and meeting the families and the family members as the best versions of themselves before we see and address the diagnoses this book draws on ten years of clinical research and contains stories about helping people who are heavily burdened with psychiatric illnesses to find ways to live a life as close as possible to their dreams the chapters are organized according to ideas values and techniques the book describes family oriented practices narrative collaborative practices narrative psychiatric practices and narrative agency practices it also talks about wonderfulness interviewing mattering practices public note taking on paper charts therapeutic letter writing diagnoses as externalized problems narrative medicine and family community meetings each chapter includes case studies that illustrate the theory ethics and practice told by nina jørring in collaboration with the families and colleagues the book will be of interest to child and adolescent psychiatrists and all other mental health professionals working with children and families

the wind in the willows by kenneth grahame from coterie classics all coterie classics have been formatted for ereaders and devices and include a bonus link to the free audio book spring was moving in the air above and in the earth below and around him penetrating even his dark and lowly little house with its spirit of divine

discontent and longing kenneth grahame the wind in the willows in one of the most loved children s classics mole ratty badger and mr toad celebrate their friendship on the river and entrench themselves in the hearts and minds of readers

evaluation is a part of everyday life competences knowledge and skills are assessed in ordinary as well as in institutional settings like hospitals clinics and schools this volume investigates how evaluations are being carried out interactionally more specifically it explores how people evaluate each others cognitive competences as they deal with each others understandings knowings feelings doings hearings and learnings face to face the contributions focus on different evaluation activities in a variety of institutional settings in denmark finland sweden holland and the united states of america all the contributions approach the theme by use of ethnomethodology em and or conversation analysis ca thus the analytic interests concern how participants organize activities of evaluating cognitive competences by means of recognizable interactional methods this approach differs from other approaches and research interests within cognitive science as it concentrates on how people in interaction orient towards cognitive competence irrespective of scientific theories
