dx doi org 10 12946 gplh6 epubli de shop buch 53894 the spatiotemporal conjunction is a fundamental aspect of the juridical reflection on the historicity of law despite the fact that it seems to represent an issue directly connected with the question of where legal history is heading today it still has not been the object of a focused inquiry against this background the book s proposal consists in rethinking key confluences related to this problem in order to provide coordinates for a collective understanding and dialogue the aim of this volume however is not to offer abstract methodological considerations but rather to rely both on concrete studies out of which a reflection on this conjunction emerges as well as on the reconstruction of certain research lines featuring a spatiotemporal component this analytical approach makes a

contribution by providing some suggestions for the employment of space and time as coordinates for legal history indeed contrary to those historiographical attitudes reflecting a monistic conception of space and time as well as a eurocentric approach the book emphasises the need for a delocalized global perspective in general terms the essays collected in this book intend to take into account the multiplicity of the spatiotemporal confines the flexibility of those instruments that serve to create chronologies and scenarios as well as certain processes of adaptation of law to different times and into different spaces the spatiotemporal dynamism enables historians not only to detect new perspectives and dimensions in foregone themes but also to achieve new and compelling interpretations of legal history as far as the relationship between space and law is concerned the book analyses experiences in which space operates as a determining factor of law e.g. in terms of a field of action for law moreover it outlines the attempted scales of spatiality in order to develop legal historical research with reference to the connection between time and law the volume sketches the possibility of considering the factor of time not just as a descriptive tool but as an ascriptive moment quasi an inner feature of a legal problem thus making it possible to appreciate the synchronic aspects of the juridical experience as a whole the volume aims to present spatiotemporality as a challenge for legal history indeed reassessing the value of the spatiotemporal coordinates for legal history implies thinking through both the thematic and methodological boundaries of the discipline

this socio political study traces the rise to power of a fascist dictatorship in Italy and its control of the state during World War II it focuses specifically on the institutions of the fascist state the suppression of anti fascism and the use of propaganda in maintaining the state

political theology is a distinctly modern problem one that takes shape in some of the most important theoretical writings of the twentieth and twenty first centuries but its origins stem from the early modern period in medieval iconographies of sacred kinship and the critique of traditional sovereignty mounted by Hobbes and Spinoza in this book Graham Hammill and Julia Reinhard Lupton assemble established and emerging scholars in early modern studies to examine the role played by sixteenth and seventeenth century literature and thought in modern conceptions of political theology political theology and early modernity explores texts by Shakespeare Machiavelli Milton and others that have served as points of departure for such thinkers as Schmitt Strauss Benjamin and Arendt written from a spectrum of positions ranging from renewed defenses of secularism to attempts to reconceive the religious character of collective life and literary experience these essays probe moments of productive conflict disavowal and entanglement in politics and religion as they pass between early modern and modern scenes of thought this stimulating collection is the first to answer not only how Renaissance and Baroque literature help explain the persistence of political theology in modernity and postmodernity but also how the reemergence of political theology as an intellectual and political problem deepens our understanding of the early modern period

Catholics and Communists in Twentieth Century Italy explores the critical moments in the relationship between the Catholic world and the Italian Left providing unmatched insight into one of the most significant dynamics in political and religious history in Italy in the last hundred years the book covers the Catholic Communist movement in Rome 1937-45 the experience of the Resistenza the governmental collaboration between the Catholic Party (DC) and the Italian Communist Party (PCI) until 1947 and the dialogue between some of the key figures in both spheres

in the tensest years of the cold war daniela saresella even goes on to consider the legacy that these interactions have left in italy in the 21st century this pioneering study is the first on the subject in the english language and is of vital significance to historians of modern italy and the church alike

italy played a vital role in the cold war dynamics that shaped the middle east in the latter part of the 20th century it was a junior partner in the strategic plans of nato and warmly appreciated by some arab countries for its regional approach but italian foreign policy towards the middle east balanced between promoting dialogue stability and cooperation on one hand and colluding with global superpower manoeuvres to exploit existing tensions and achieve local influence on the other italy and the middle east brings together a range of experts on italian international relations to analyse for the first time in english the country s cold war relationship with the middle east chapters covering a wide range of defining twentieth century events from the arab israeli conflict and the lebanese civil war to the iranian revolution and the soviet invasion of afghanistan demonstrate the nuances of italian foreign policy in dealing with the complexity of middle eastern relations the collection demonstrates the interaction of local and global issues in shaping italy s international relations with the middle east making it essential reading to students of the cold war regional interactions and the international relations of italy and the middle east

Recognizing the exaggeration ways to get this book **Psicanalisi E Politica** is additionally useful. You have remained in right site to start getting this info. get the Psicanalisi E Politica member that we provide here and check out the link.
