in magic's reason graham m jones tells the entwined stories of anthropology and entertainment magic the two pursuits are not as separate as they may seem at first as jones shows they not only matured around the same time but they also shared mutually reinforcing stances toward modernity and rationality it is no historical accident for example that colonial ethnographers drew analogies between western magicians and native ritual performers who in their view hoodwinked gullible people into believing their sleight of hand was divine using french magicians engagements with north african ritual performers as a case study jones shows how magic became enshrined in anthropological reasoning acknowledging the residue of magic's colonial origins doesn't require us to dispense with it rather through this radical reassessment of classic anthropological ideas magic's reason develops a new perspective on the promise and peril of cross cultural comparison

what would christianity be like without the soul while most people would expect the christian bible to reveal a highly traditional opposition of matter and spirit the spirit forces of the old and new testaments are often surprisingly physical dynamic and practical a matter of energy as much as ethics the secret history of the soul examines the forgotten or suppressed models of body soul and human consciousness found in the literature philosophy and scripture of the ancient and classical worlds it shows how the spirit forces of homer plato aristotle and the old and new testaments tended to be quantities not entities and to be closely bound up with the dynamic physical flux of the human body rather than cleanly abstracted in some absolute immaterial realm forces such as menos and thymos nephesh pneuma and dynamis not only blurred the line between body and soul but were potent and transferable being used in new testament culture to effect magical cures or bestow magical power related to

this surprising lack of body soul dualism is a lack of dualistic afterlife in either homer or hebrew scripture where hades and sheol are the sole post mortem destinations the secret history of the soul restores the living strangeness of a spirit world filled with potent energy and practical magic in cultures which had not yet glimpsed the abstracted soul of later christianity
