herman melville's ultimate collection compiles over fifty of his most significant works bridging an array of adventure classics philosophical novels and short stories characterized by rich narrative complexity and profound symbolism this collection reflects melville's innovative literary style that melds realism and

romanticism from the high seas of *Moby Dick* to the existential musings in *Bartleby the Scrivener* Melville explores themes such as identity morality and the human condition against the backdrop of 19th century America a time of immense social transformation and ideological conflict Herman Melville 1819 1891 emerged from a diverse set of experiences as a sailor clerk and lecturer which fueled his literary imagination his early maritime adventures deeply informed his writing endowing it with authenticity and an understanding of life's tumultuous currents disregarded in his time Melville's work has since been recognized for its deep philosophical insights and psychological depth making him a staple in American literature and a significant precursor to modern existential thought this comprehensive collection is essential for scholars students and casual readers alike as it encapsulates the enduring spirit of Melville's literary genius discover the profound narratives and explore philosophical inquiries that resonate with contemporary issues inviting readers to confront the eternal questions of existence and humanity

this engrossing anthology assembles classic New Yorker pieces from a complex era enshrined in the popular imagination as the decade of poodle skirts and cold war paranoia featuring contributions from Philip Roth John Updike Nadine Gordimer and Adrienne Rich along with fresh analysis of the 1950s by some of today's finest writers the New Yorker was there in real time chronicling the tensions and innovations that lay beneath the era's placid surface in this thrilling volume classic works of reportage criticism and fiction are complemented by new contributions from the magazine's present all star lineup of writers the magazine's commitment to overseas reporting flourished in the 1950s leading to important dispatches from East Berlin the Gaza Strip and Cuba during the rise of Castro closer to home the fight to break barriers and establish a new American identity led to both illuminating coverage as in a portrait of Thurgood Marshall at an NAACP meeting in Atlanta and trenchant commentary as in E. B. White's blistering critique of Senator Joe McCarthy the arts scene is recalled in critical writing rarely reprinted including Wolcott Gibbs on *My Fair Lady* Anthony West on *Invisible Man* and Philip Hamburger on *Candid Camera* also featured are great early works from Philip Roth and Nadine Gordimer as well as startling poems by Theodore Roethke and Anne Sexton among others completing the panoply are insightful and entertaining new pieces by present day New Yorker contributors examining the 1950s through contemporary eyes the result is a vital portrait of American culture as only one magazine in the world could do it including contributions by Elizabeth Bishop Truman Capote John Cheever Roald Dahl Janet Flanner Nadine Gordimer A. J. Liebling Dwight Macdonald Joseph Mitchell Marianne Moore Vladimir Nabokov Sylvia Plath V. S. Pritchett Adrienne Rich Lillian Ross Philip Roth Anne Sexton James Thurber John Updike Eudora Welty E. B. White Edmund Wilson and featuring new perspectives by Jonathan Franzen Malcolm Gladwell Adam Gopnik Elizabeth Kolbert Jill Lepore Rebecca Mead Paul Muldoon Evan Osnos David Remnick praise for the 50s superb a gift that keeps on giving Kirkus Reviews starred review a magnificent anthology literary review

in the extensive Bram Stoker Ultimate Collection readers are invited into a rich tapestry of horror dark fantasy and intrigue showcasing over fifty works that span Stoker's illustrious literary career the collection is marked by Stoker's signature gothic style replete with atmospheric settings intense characterizations and a palpable sense of dread each tale whether it be a chilling vampire story or a spine tingling true crime narrative contributes to a broader commentary on the human condition fear and the unknown reflecting the anxieties of the Victorian era in which Stoker lived and wrote Bram Stoker best known for his iconic

novel dracula was a master of horror who drew upon his background in theatre literature and folklore to craft suspenseful narratives the obsessive themes of monstrosity and morality in his works may have been influenced by his own experiences and the socio cultural landscapes of late 19th century london where he grappled with emergent modernity and its discontents his rich education and lifelong fascination with the macabre undoubtedly shaped the expansive vision behind this ultimate collection for aficionados of horror and gothic literature stoker s ultimate collection is an indispensable addition to any library offering a comprehensive exploration of a writer who effectively defined the genre this anthology not only celebrates stoker s legacy but also invites contemporary readers to delve into the timeless fears and moral complexities that resonate throughout his work

this book presents a thorough and critical review of current knowledge about the age of onset of mental disorders the opening chapters offer information about the impact of the age of onset on the clinical picture course and outcome of physical illnesses and about the neurobiological implications and correlates of different ages of onset the impact and correlates of the ages of onset of all the most important mental disorders are then discussed in detail by internationally renowned scientists the background to the book is the recognition that a better understanding of age of onset makes it possible to estimate the lifetime risk of disorders helps to elucidate pathogenesis and facilitates efficient targeted clinical management the book will be of value for clinicians mental health professionals mental health researchers epidemiologists and different stakeholders in the mental health field

this book gives an insight into panegyrics a genre central to understanding medieval near eastern society poets in this multi ethnic society would address the majority of their verse to rulers generals officials and the urban upper classes its tone ranging from celebration to reprimand and even to threat

this volume offers a detailed and up to date analysis of the unmet needs of patients with psychoses and personality disorders these include the needs associated with early detection of ultra high risk populations and first episode psychosis recognition of the trajectories of bipolar disorder and schizophrenia recovery early intervention such as the use of lais the conundrum of differential diagnosis in various personality disorders and unsatisfactory quality of life even in the presence of symptom control intended for clinical psychiatrists and other practitioners interested in mental health this book helps them to manage the challenges of the diagnostic uncertainty in first episode psychosis and timely interventions since the earlier diagnosis is confirmed the sooner multidisciplinary treatment can be implemented and plans for psychoeducation and relapse prevention drawn up

this 2003 book is a full scale history of early modern english literature offering perspectives on english literature produced in britain between the reformation and the restoration while providing the general coverage and specific information expected of a major history its twenty six chapters address recent methodological and interpretive developments in english literary studies the book has five sections modes and means of literary production circulation and reception the tudor era from the reformation to elizabeth i the era of elizabeth and james vi the earlier stuart era and the civil war and commonwealth era while england is the principal focus literary production in scotland ireland and wales is treated as are other subjects less frequently examined in previous

histories including women's writings and the literature of the English reformation and revolution this history is an essential resource for specialists and students

this book is a comprehensive 2002 analysis of the Spanish left during the civil war of 1936-9

piracy cultures editorial introduction manuel castells 1 university of southern california gustavo cardoso lisbon university institute iscte iul what are piracy cultures usually we look at media consumption starting from a media industry definition we look at tv radio newspapers games internet and media content in general all departing from the idea that the access to such content is made available through the payment of a license fee or subscription or simply because it's either paid or available for free being supported by advertisements or under a freemium business model that is we look at content and the way people interact with it within a given system of thought that sees content and its distribution channels as the product of relationships between media companies organizations and individuals effectively a commercial relationship of a contractual kind with accordant rights and obligations but what if for a moment we turned our attention to the empirical evidence of media consumption practice not just in Asia Africa and South America but also all over Europe and North America all over the world we are witnessing a growing number of people building media relationships outside those institutionalized sets of rules we do not intend to discuss whether we are dealing with legal or illegal practices our launching point for this analysis is that when a very significant proportion of the population is building its mediation through alternative channels of obtaining content such behavior should be studied in order to deepen our knowledge of media cultures because we need a title to characterize those cultures in all their diversity but at the same time in their commonplaceness we propose to call it piracy cultures

the piracy years internet file sharing in a global context is the first collection to provide an overview of digital piracy's recent past and its potential futures

combining research essays interviews and overviews the volume brings together leading scholars and infamous digital pirates from china germany the netherlands nigeria russia the united kingdom and the united states in june 1999 the peer to peer p2p file sharing website napster transformed the availability of online content but the site was quickly sued into oblivion despite the highly publicised shutdowns of a number of p2p websites many continue to thrive and digital piracy has become a global phenomenon this book argues that any future media theory and research will have to contend with such web practices remaining an integral and politically formative part of the internet offline and online piracies thrive on technological affordances in opposition to corporate efforts in music film publishing and academia to label them as threatening to the economy and society therefore this book explores piracy as a phenomenon navigating the conventions norms and boundaries of legality in digital cultures pirate networked sociabilities work within and outside the fringes of market economy through the lens of institutional and discursive power by creating new ways that keep society moving and from stagnation they ensure its continued existence including the survival of the very areas they attack the piracy years is an essential resource for researchers post graduate students and anyone interested in the global spread and ever increasing importance of digital piracy

with two new lead authors the sixth edition of psychiatric diagnosis continues its thirty five year tradition of providing a clear critical and well documented overview of major psychiatric syndromes with minimum inclusion of unwieldy theories or clinical opinions medical students and psychiatric residents will continue to find this new edition to be a unique guide to the field a volume that concisely yet comprehensively dissects major psychiatric disorders well known for providing a thorough yet concise view of the natural history of basic psychiatric disorders this popular text has been extensively updated chapter by chapter in this sixth edition terminology has been made consistent with dsm iv tr and updates made to include recent genetic and neurobiological findings in the classification of psychiatric disorders new data on follow up and family genetic studies confirming and extending previous research are provided as in previous editions each chapter systematically covers the definition historical background epidemiology clinical picture natural history complications family studies differential diagnosis and clinical management of each disorder some specific areas of new material include the long term course of mood disorders genetics and neuro imaging of schizophrenia and mood and other disorders cognitive changes in relation to depression and dementia brain stimulation techniques outcome studies of eating disorders and epidemiology of drug use disorders in accordance with current medical community interest and research entirely new chapters on posttraumatic stress disorder and borderline personality disorder have been included additionally a new introduction reviews the background of medical model psychiatry and the empirical approach to psychiatric nosology with this new edition medical students and psychiatric residents will continue to discover that no other text provides such a lucid well documented and critically sound overview of the major syndromes in psychiatry

the reformation of the sixteenth century shattered the unity of medieval christendom and the resulting fissures spread to the corners of the earth no scholar of the period has done more than carlos m n eire however to document how much these ruptures implicated otherworldly spheres as well his deeply innovative publications helped shape new fields of study intertwining social intellectual cultural and religious history to reveal how lived beliefs had real and profound implications for social and political life in early modern europe reflecting these themes the volume celebrates the intellectual legacy of carlos eire s scholarship

applying his distinctive combination of cultural and religious history to new areas and topics in so doing it underlines the extent to which the relationship between the natural and the supernatural in the early modern world was dynamic contentious and always urgent organized around three sections connecting the natural and the supernatural bodies in motion mind soul and death and living one s faith the essays are bound together by the example of eire s scholarship ensuring a coherence of approach that makes the book crucial reading for scholars of the reformation christianity and early modern cultural history
