can there only be one rapture the rapture code part one of an eight book coded series this is the first book of an eight book coded series concerning christian living i ve been a christian for 34 yrs and for over 30 of those years i have tried to augment the rapture of the church with additional biblical evidence i started out all those years ago to accomplish this one task well god has greatly blessed me in that i found not one code concerning the rapture but a coded series of eight codes total thus each one relating to the christians walking out their salvation in one aspect or another doctrinally this first book pertains to the rapture of the church in a pre millennial position that promotes as true the seven year tribulation the millennial reign of jesus christ here on earth the little season of satan and then the new heavens and earth what i have uncovered is a deeper answer that gives good reasons for all three rapture positions which are pre mid and post tribulation being three different raptures all taking place during this 7 year time period thus there being three separate raptures instead of just one i see there are three raptures of three different groups of peoples in the tribulation period instead of the one group of the one rapture of the church in only one of the three rapture positions offered us namely the rapture positions of pre or mid or post tribulation thus again i see three different raptures taking place as follows rapture of the church rapture of the two witnessess rapture of the elect of israel pre tribulation mid tribulation post tribulation israel is always the key to proper biblical prophecy without israel in existence today as a nation there would be no final end times israel and the church are separate in the scriptures and so it only makes sense especially after seeing the evidence that i have accumulated in this book that israel would have it s own rapture further christians are making the same error of judgment pertaining to christ s rapture of the church seeing only one rapture that israel made concerning christ s first coming israel perceived wrongly that there was only one coming of christ which they were sorely mistaken and we now know that there are two comings of the lord one 2 000 yrs ago and one in the near future but christians are making the same error in thinking that there is only one

rapture of one major group of people the rapture of the church when in fact there are two raptures of two major groups of peoples as noted above note the two witnesses are not a group though i feel with some scriptural evidence that the 144 000 may go up with the witnesses in which the left behind notion will be proved wrong also i have found a word pattern order exclusive to the kjb that shows forth this order in many ot verses as well as the nt i have found the threefold pattern of these three raptures in the breastplate of the high priest in the seven feasts of israel in the books of daniel and revelation in the books of matthew mark and luke and in many other places in addition these truths will strengthen the eternal security of any believer finally i have discovered many new study aids for advance studies that only appear in the kjb which will strengthen the christian for the ongoing battle for the bible the king james bible in which these study aids can and will be demonstrated throughout this eight book coded series by which these eight codes are based in acts 3 the codes are there in this chapter four times in a four times over repeating order perfectly this co

greennan bases his evaluation of arguments on two criteria logical adequacy and pragmatic adequacy he asserts that the common formal logic systems while logically sound are not very useful for evaluating everyday inferences which are almost all deductively invalid as stated turning to informal logic he points out that while more recent informal logic and critical thinking texts are superior in that their authors recognize the need to evaluate everyday arguments inductively they typically cover only inductive fallacies ignoring the inductively sound patterns frequently used in successful persuasion to redress these problems greennan introduces a variety of additional inductive patterns concluding that informal logic texts do not encourage precision in evaluating arguments greennan proposes a new argument evaluation procedure that expresses judgments of inferential strength in terms of probabilities based on theories of stephen toulmin roderick chisholm and john pollock his proposed system allows for a more precise judgment of the persuasive force of arguments

responding to the belief that typology was a later development of the early church and not applicable to the earliest canonical gospel jonathan robinson stresses that typology has deep jewish roots and that typological modes of thought were a significant part of the gospel s historical and cultural background he brings this insight to bear on four of the most dramatic miracles in mark s gospel discovering a surprisingly consistent typological approach essential to robinson s argument is the discovery of distinctive words and phrases taken from the septuagint that serve as unique indicators of mark s intent to refer back to miracles from the jewish scriptures pointing to influence from jonah david elisha and moses these references in turn provide insight into mark s christology revealing that mark presents jesus as both the fulfilment of scriptural human types and as assuming the narrative form of israel s god robinson argues that rather than imposing categories extracted from earlier jewish literature like divine identity and exalted human figures mark should be allowed to speak on its own terms and with its own unique voice
