this major new survey of sociolinguistics identifies gaps in our existing knowledge base and provides directions for future research

high risk offenders can have a disproportionate impact on their communities because despite all manner of sentencing options they continue to commit a wide range of crimes both minor and serious it is tempting to throw the book at them sometimes even to throw away the key however anything that helps offenders to change their

propensity for re offending can really make a difference over the last 30 years scientific research has guided the provision of treatment rehabilitation and reintegration services that lead to reductions in re offending much of what we know however comes from work with medium risk offenders although this work is important and valuable there is a lower level of complexity to working with medium risk offenders than most high risk offenders require this book recognizes the need to research and develop different approaches to rehabilitating high risk offenders each of the contributions takes a different approach with a different group of offenders in a different setting cumulatively the chapters provide encouragement for those working with high risk offenders along with a wide range of ideas about how to develop better services this book was originally published as a special issue of psychology crime law

this book presents innovative and high quality research regarding advanced decision support systems dsss it describes the foundations methods methodologies models tools and techniques for designing developing implementing and evaluating advanced dsss in different fields including finance health emergency management industry and pollution control decision support systems employ artificial intelligence methods to heuristically address problems that are cannot be solved using formal techniques in this context technologies such as the semantic linked data big data and machine learning are being applied to provide integrated support for individuals and organizations to make more rational decisions the book is organized into two parts the first part covers decision support systems for industry while the second part presents case studies related to clinical emergency management and pollution control

an understanding of the basic accounting is a must for all professionals whether they are associated with accounting or non accounting jobs considering the fundamentals and the practical implication of accounting procedures and methods the third edition of the book has been enlarged further by adding three more chapters on fund flow statement cash flow statement analysis and accounts of non trading concerns in view of the need of the current business scenario these topics are introduced to help students learn new dimensions of the subject and to apply it to workplace scenario the book is especially designed for the undergraduate students of computer application bca and business administration bba it is also useful for the postgraduate students of business administration mba

the new edition of this landmark international work builds on the previous two volumes

offering a window onto occupational therapy practice theory and ideas in different cultures and geographies it emphasizes the importance of critically deconstructing and engaging with the broader context of occupation particularly around how occupational injustices are shaped through political economic and historical factors centering on the wider social and political aspects of occupation and occupation based practices this textbook aims to inspire occupational therapy students and practitioners to include transformational elements into their practice it also illustrates how occupational therapists from all over the world can affect positive changes by engaging with political and historical contexts divided into six sections the new edition begins by analyzing the key concepts outlined throughout along with an overview on the importance and practicalities of monitoring and evaluation in community projects section two explores occupation and justice emphasizing that issues of occupational injustice are present everywhere in different forms from clinical settings to community based rehabilitation section three covers the enactment of different occupational therapies with a focus on the multiplicity of occupational therapy from the intimately personal to the broadly political section four engages with the broader context of occupational therapy from the political to the financial the chapters in this section highlight the recent financial crisis and the impact it has had on people s everyday life section five collects a range of different approaches to working to enable a notion of occupational justice featuring chapters from across the globe section six concludes by highlighting the importance and diversity of educational practices comprehensively covers occupational therapy theory methodology and practice examples related to working with underserved and neglected populations gives a truly global overview with contributions from over 100 international leading experts in the field and across a range of geographical political and linguistic contexts demonstrates how occupational injustices are shaped through political economic and historical factors advocates participatory approaches which work for those who experience inequalities includes a complete set of new chapters explores neoliberalism and financial contexts and their impact on occupation examines the concept of disability discusses theoretical and practical approaches to occupational justice

field stream america s largest outdoor sports magazine celebrates the outdoor experience with great stories compelling photography and sound advice while honoring the traditions hunters and fishermen have passed down for generations
