this volume focuses on a wide range of behaviors and outcomes in stepfamily relationships both positive and negative the authors use the normative adaptive perspective to seek out and study adaptive well functioning stepfamilies and find how they differ from those who struggle to cope it will be a welcome text and reference for all those who study and work with stepfamilies and families in general

surviving and thriving in stepfamily relationships is designed to be useful both to stepfamily members themselves and to a wide variety of practitioners as well as to educators judges mediators lawyers and medical personnel

this second edition synthesizes the emerging knowledge base on the diversity of stepfamilies their inherent concerns and why so relatively little is still known about them its extensive findings shed needed light on family arrangements relatively new to the literature e g cohabitating stepparents the effects of these relationships on different family members e g stepsiblings stepgrandparents the experiences of gay and lesbian stepfamilies and the stigma against non nuclear families coverage reviews effective therapeutic and counseling interventions for emotional familial and social challenges of stepfamilies as well as the merits of family education and self help programs the authors explore prevailing myths about marriage divorce and stepfamily life while expanding the limits of stepfamily research among the topics included the cultural context of stepfamilies couple dynamics in stepfamilies gay and lesbian couples in stepfamilies the dynamics of stepparenting siblings half siblings and stepsiblings effects of stepfamily living on children clinical perspectives on stepfamily dynamics for researchers and clinicians who work with families it enriches the literature as it offers insights and guidelines for effective practice as well as possible avenues for future research

this book uses a strengths based approach and resilience perspective to offer guidance on what works in creating effective stepfamily relationships sharing findings and empirically supported best practices for stepfamily members and the family professionals that work with them drawing from over 2 500 studies ganong coleman and sanner present a comprehensive overview of research on what works to create positive and satisfying stepfamily relationships chapters address how to work with stepcouples stepparents biological parents co parents stepsiblings and half siblings and biological and stepgrandparents with illustrative case studies throughout it emphasizes the diversity and complexity of stepfamilies including work with lgbtq stepfamilies stepfamilies from various racial and ethnic groups and stepfamily relationships across the life course from childrearing stepfamilies

to those formed later in life this book is essential reading for students researchers and practitioners interested in strengthening stepfamily relationships such as those studying or working in family science marriage and family therapy psychology and social work

the authors in the volume extend the reach of their comprehensive reviews into theoretically driven and innovating explorations the scope of coverage across and within chapters is striking the developmentalist the methodologist the feminist the contextualist and the cross culturalist alike will find satisfaction in reading the chapters catherine a surra the university of texas at austin the science of close relationships is relatively new and complex close relationships a sourcebook represents the growing maturity of this multidisciplinary enterprise the volume offers 26 chapters organized into four thematic areas relationship methods forms processes and threats as well as a foreword and an epilogue the volume provides a panoramic view of close relationship research as it enters the 21st century offering highlights from current literature original research practical applications and projections for future research relationship methods includes both qualitative and quantitative chapters relationship forms includes many of the stages types and roles that characterize intimate relationships in a developmental fashion chapters address social networks children s friendships adolescent relationships adult friendships and friendships in later life chapters on multicultural and multiracial relationships and gay lesbian and bisexual relationships illustrate the variety of relationship forms that the science of close relationships must consider the alignments and realignments of traditional family structure are considered in terms of contemporary marriage divorce and single parenting and remarried families relationship processes includes chapters on emotion attachment romantic love sexuality intimacy communication conflict social support and relational maintenance the important topic of gender concludes the section the shadow side of human nature is explored in the relationship threats section with chapters on infidelity and jealousy physical and sexual aggression depression and loss and bereavement a foreword by ellen berscheid sets the stage for this broad ranging collection of chapters steve duck and linda acitelli conclude with an epilogue that provides a new beginning for the science of close relationships

this third edition again brings together interdisciplinary contributions to provide a comprehensive and multifaceted resource that reflects the breadth and depth of research on family communication and family relationships chapters continue to address theoretical and methodological issues influencing current conceptions

of family and cover communication occurring in a variety of family forms and across social cultural and physical contexts this third edition includes key updates such as the use and influence of social media and technology in families parenting and communication in culturally and structurally diverse families communication and physical health of family members managing personal information about difficult topics in families the influence of the covid 19 pandemic on family members this handbook is ideal for students and researchers interested in interpersonal and family communication relationships and family therapy within the disciplines of communication social psychology clinical psychology sociology and family studies

this edited book highlights cutting edge applications and research on the maintenance and enhancement of close romantic relationships first rate contributors cover a breadth of topics from specific problems such as alcoholism to therapeutic interventions

written by contributors from around the world the international handbook of stepfamilies policy and practice in legal research and clinical environments is a collection of research legal and clinical recommendations that fills a growing need for complex re formed families using the information in this book which includes contemporary research and its implications you will be able to consider stepfamilies in an international context understand the issues that clinicians face when they work with stepfamilies both before and after formation and gain more knowledge about this topic as the rates of family reformation increase

based on a landmark longitudinal study the nation s leading expert on stepfamilies reveals his breakthrough findings and offers the first detailed guide to easing the conflicts of stepfamily life and healing the scars of divorce there are more than twenty million stepfamilies in america for most of them the simple daily issues that challenge every family are even more anxiety provoking after conducting a comprehensive nine year long study funded by the national institutes of health dr james h bray has written an invaluable book that explains why over half of all stepfamilies fail and reveals the strategies that help the others succeed a stepfamily is assaulted on all sides by difficult and often divisive questions how much control should a stepparent have over a stepchild how much authority should a nonresidential parent exert over a child how should a difficult former spouse be handled how does an ours baby change the emotional dynamic in a stepfamily why is there a lack of honeymoon effect during the first years of stepfamily life the purpose of stepfamilies is to answer all the important questions of stepfamily

life to fill in the knowledge gaps that undermine so many stepfamilies today and crucially to learn the effect of stepfamily life on children based on one of the largest and longest studies of stepfamily life ever conducted stepfamilies interweaves the stories of real families to illustrate such study findings as how a stepfamily has its own natural life cycle a stepfamily takes several years to develop into a family unit a stepfamily is at greatest risk during the first two years a stepfamily ultimately coalesces into one of three forms a stepfamily must solve four basic tasks in order to succeed a stepfamily can help heal the scars of divorce filled with emotional gripping stories bray s findings pinpoint the three major transitions in stepfamily life and identify the riskiest issues that can throw a family into crisis bray is the first to identify the several distinct forms that stepfamilies take and to explore which types of stepfamilies are more vulnerable than others and why he also describes the natural life cycle of stepfamilies and basic tasks all stepfamilies must undertake to succeed with a wealth of insight into the positive effects of remarriage bray shows how a loving well functioning stepfamily can lessen the trauma of divorce and restore a child s and family s sense of security most stepparents remarry with the highest hopes and new resolutions for a better life never before have their unique needs been addressed in depth through insightful case studies and practical advice stepfamilies reveals how a strong stable stepfamily is as capable as a nuclear family of nurturing healthy development of imbuing values of setting limits and boundaries and of providing a structure in which rules for living a moral and productive life are transmitted tested rebelled against and ultimately affirmed bray s positive message and fascinating findings many of which defy intuition will put stepfamilies on the road to lifelong harmony

do stepfamilies experience greater levels of stressors than first families do they also experience more negative manifestations of stress find the latest research on these questions and more in this groundbreaking exploration of the complex factors and dynamics that make up stepfamilies the stepfamily puzzle fills a gap in research that has not kept pace with the rapid growth of interest in this subject it sets some of the pieces of the stepfamily puzzle into an intergenerational framework that includes the roles of grandparents parent child interactions the struggles to define boundaries and achieve marital intimacy and the underlying effects of financial support on stepfamily well being the stepfamily puzzle compares the effects of stress in stepfamilies and conditions in other families and reveals that the differences between the two types of families may not be as dramatic as long assumed it also examines in depth the emotional and financial stressors that impact stepfamilies and how this

stress is exhibited in family relationships other groundbreaking research presented in this book includes the closeness of relationships between children and grandparents in stepfamilies as compared to children and grandparents in first families effects of ongoing attachment to the former spouse on post divorce relationships stepsibling subsystems a comparison of self esteem and behavior problems of stepchildren and children in other family structures social support received by children in stepmother stepfather and intact families quality of stepfather adolescent relationships effect of child support on stepfamily satisfaction therapists attorneys and those interested in the numerous therapeutic and psychoeducational programs self help groups and trade literature available on stepfamily relationships will find the stepfamily puzzle a valuable introduction to current research in this area by presenting the complex variables that interact within stepfamilies this book helps professionals understand the dynamics behind stepfamily relationships so they can provide effective support and care

this paper discusses the appropriateness of adoption as a means of establishing the legal status and family relationships of stepchildren with their stepparents it examines the legal alternatives to adoption and concludes that an order for guardianship and or custody would better meet the needs of the children involved the author argues that an adoption order should be made only in exceptional circumstances

the marriage family experience is a realistic look at relationships today these experienced authors will help you see and understand the underlying issues at work in marriages families and all kinds of relationships real life cross cultural examples and features that encourage you to look deeper at yourself make the tenth edition accessible and compelling this is a book you can relate to and one you will want to read the book presents the latest information on adoptive parenting childbearing patterns gay and lesbian families the meaning of virginity gender roles and sexuality communication and conflict resolution the influence of popular culture and working families with thorough and compelling coverage of all kinds of today s families and relationships the book dispels myths about gender differences and gives you a realistic and comprehensive overview of the concepts and topics you ll need to succeed in your course

brave new stepfamilies is an excellent treatise on today s families this volume is a welcome addition to the field of family studies and i highly recommend it jeanne brooks gunn columbia university a thorough balanced tour de

force frances goldscheider university of marylandbrave new stepfamilies maps the changing landscape of american stepfamilies taking readers on a tour through the diverse assortment of traditional and not so traditional stepfamily forms that have emerged in recent years author susan d stewart presents the latest scholarly research on stepfamilies in an accessible way weaving together predominant theoretical perspectives findings from research and national surveys and interviews with stepfamily members key features investigates the social and demographic trends that have irrevocably altered stepfamily life while most books on stepfamilies focus on divorce and remarriage this book examines recent trends such as couples having children and living together outside of marriage parents sharing custody of children gay marriage the aging population and increasing racial and ethnic diversity that provide multiple pathways to stepfamily formation explores a wide range of living arrangements caregiving and intimacy scenarios this book captures the lived experience of contemporary americans extending across various household settings this book pays special attention to multihousehold stepfamilies stepparent adoption stepfamilies with adult stepchildren and african american stepfamilies provides practical information on the prevalence of stepfamilies in society counting the number of stepfamilies in society is difficult published estimates are sometimes unreliable this book describes the latest data sources trends in data collection and data limitations in addition useful information on the legal and practical realities of living as a stepfamily is provided intended audience this is an excellent text for a variety of advanced undergraduate and graduate courses on family such as divorce and remarriage stepfamilies family diversity gay and lesbian families aging and the family african american families and family policy in departments of sociology human development family studies psychology african american or ethnic studies and public policy

this volume provides extensive coverage and the most up to date information available for students and scholars in social psychology interpersonal communication family studies clinical psychology counseling and gender studies
