within the disciplines of social economic and evolutionary science a proud ignorance can often be found of the other areas approaches this text provides a novel intellectual basis for breaking this trend certainly human sciences and human interests aspires to open a broad debate about what scholars in the different human sciences assume imply or explicitly claim with regard to human interests mikael klintman draws the reader to the core of human sciences how they conceive human interests as well as how interests embedded within each discipline relate to its claims and recommendations moreover by comparing theories as well as concrete examples of research on health and environment through the lenses of social economic and evolutionary sciences klintman outlines an integrative framework for how human interests could be better analysed across all human sciences this fast paced and modern contribution to the field is a necessary tool for developing any human scientist s ability to address multidimensional problems within a rapidly changing society avoiding dogmatic reasoning this interdisciplinary text offers new insights and will be especially relevant to scholars and advanced students within the aforementioned disciplines as well as those within the fields of social work social policy political science and other neighbouring disciplines

this book presents the historical background of the development of methodology for the human sciences in order to provide readers with a context for understanding the present concerns and issues in research methodology

the palgrave handbook of the history of human sciences offers a uniquely comprehensive and global overview of the evolution of ideas concepts and policies within the human sciences drawn from histories of the social and psychological sciences anthropology the history and philosophy of science and the history of ideas this collection analyses the health and welfare of populations evidence of the changing nature of our local communities cities societies or global movements and studies the way our humanness or human nature undergoes shifts because of broader technological shifts or patterns of living this handbook serves as an authoritative reference to a vast source of representative scholarly work in interdisciplinary fields a means of understanding patterns of social change and the conduct of institutions as well as the histories of these ways of knowing probe the contexts circumstances and conditions which underpin continuity and change in the way we count analyse and understand ourselves in our different social worlds it reflects a critical scholarly interest in both traditional and emerging concerns on the relations between the biological and social sciences and between these and changes and continuities in societies and conducts as 21st century research moves into new intellectual and geographic territories more diverse fields and global problematics

henderson examines the foundations of an analytic social science approach to develop a well integrated account of the human sciences focusing on the pivotal notions of interpretation and explanation the author acknowledges the importance of interpretive understanding in the human sciences and

proposes a methodology that reflects both interpretive practice as well as scientific methodology he refutes the methodological separatists who hold that the logic of explanation and testing in the human sciences is fundamentally different from that of the natural sciences and examines in detail the constraints on interpretation in providing an integrated treatment of these two central issues in social science henderson offers a thorough analysis of the adequacy of interpretation and the nature of explanation in the human sciences

the greater philadelphia philosophy consortium was launched in the early eighties it began during a particularly lean period in the american economy but its success is linked as much to the need to be in touch with the rapidly changing currents of the philosophical climate as with the need to insure an adequately stocked professional community in the philadelphia area faced perhaps permanently with the threat of increasing attrition the member schools of the consortium now include bryn mawr college the university of pennsylvania temple university and villanova university that is the schools of the area that offer advanced degrees in philosophy the philosophy faculties of these schools form the core of the consortium which offers graduate students the instructional and library facilities of each member school the consortium is also supported by the associated faculties of other regional schools that do not offer advanced degrees notably those at drexel university haverford college la salle university and swarthmore college both philosophers and members of other departments as well as interested and professionally qualified persons from the entire region the affiliated and core professionals now number several hundreds and the consortium's various ventures have been received most enthusiastically by the academic community at this moment the consortium is planning its fifth year of what it calls the conferences on the philosophy of the human studies

the essays in this volume constitute a portion of the research program being carried out by the international society for phenomenology and the human sciences established as an affiliate society of the world institute for advanced phenomenological research and learning in 1976 in arezzo italy by the president of the institute dr anna teresa tymieniecka this particular society is devoted to an exploration of the relevance of phenomenological methods and insights for an understanding of the origins and goals of the specialised human sciences the essays printed in the first part of the book were originally presented at the second congress of this society held at purdue university west lafayette indiana 12-14 july 1979 the second part of the volume consists of selected essays from the third convention the eleventh international congress of phenomenology of the world phenomenology institute held in cambridge massachusetts in 1981 with the third part of this book we pass into the human rights issue as treated by the world phenomenology institute at the interamerican philosophy congress held in tallahassee florida also in 1981 the volume opens with a monograph by anna teresa tymieniecka on the foundations of ethics in the moral practice within the life world and the social world shown as clearly distinct the main ideas of this work had been presented by tymieniecka as lead lectures to the three conferences giving them a tight research project consistency

eleven essays that probe the historical project in a wide range of disciplines

this volume brings together selected papers from the 2021 iajs conference focusing on jungian psychology's place within the broader human science field with contributions providing an interdisciplinary examination of fields such as psychoanalysis feminism critical thought and eco psychology the historical foundations of jungian thought in phenomenology hermeneutics the significance of imagination and the body's genetics open the book with outstanding essays from both renowned and aspiring new scholars chapters highlighting matters of current social political and ecological considerations shed light on the intersections between jungian psychology and much contemporary thought in these fields the healing process takes center stage in the last part of the book which will interest readers involved with the broader psychotherapy field with rigorous and scholarly contributions from a variety of international figures in analytical psychology this book will be of great interest to all jungian and depth psychology scholars students and analysts in training as well as readers in the broader human science psychology field interested in current jungian psychology and phenomenology

henderson examines the foundations of an analytic social science approach to develop a well integrated account of the human sciences focusing on the pivotal notions of interpretation and explanation the author acknowledges the importance of interpretive understanding in the human sciences and proposes a methodology that reflects both interpretive practice as well as scientific methodology he refutes the methodological separatists who hold that the logic of explanation and testing in the human sciences is fundamentally different from that of the natural sciences and examines in detail the constraints on interpretation in providing an integrated treatment of these two central issues in social science henderson offers a thorough analysis of the adequacy of interpretation and the nature of explanation in the human sciences

argues that the technical model of practice has limited applicability for the practices of care teaching nursing social work and psychotherapy

carkhuff and the possibilities science is the third title in the groundbreaking human sciences series in volume i we learned how possibilities science addresses the limitations of probabilities science and led to generativity that defines the best processes for generating the best ideas in volume ii we discovered how the power of probabilities possibilities and generativity sciences is employed by the science of change

introduction to the human sciences carries forward a projected six volume translation series of the major writings of wilhelm dilthey 1833 1911 a philosopher and historian of culture who has had a strong and continuing influence on twentieth century continental philosophy as well as a broad range of other scholarly disciplines in addition to his landmark works on the theories of history and the human sciences dilthey made important contributions to

hermeneutics and phenomenology aesthetics psychology and the methodology of the social sciences the selected works will make accessible to english speaking readers the full range of dilthey s thought including some historical essays and literary criticism the series provides translations of complete texts together with editorial notes and contains manuscript materials that are currently being published for the first time in germany this volume brings together the various parts of the introduction to the human sciences published separately in the german edition rudolf makkreel and frithjof rodi have underscored the systematic character of dilthey s theory of the human sciences by translating the bulk of dilthey s first volume published in 1883 and his important drafts for the never completed second volume

this book presents the first comprehensive introduction to methods and methodologies in the humanities and social sciences in general and islamic studies in particular from a critical rationalist point of view the book aims to be a self sufficient theoretical and practical guide to the topics that it introduces it contains a large selection of fully worked out review activities and review questions plus topics for further discussion which are devised to assist readers to better understand the issues which are discussed in the book last but not least all efforts have been made to make sure that most if not all of the reading materials which are recommended in the book are not only of the highest quality but also freely available on the internet

offers historical and philosophical arguments for treating the humanities as sciences

this volume offers one of the first systematic analyses of the rise of modern social science contrary to the standard accounts of various social science disciplines the essays in this volume demonstrate that modern social science actually emerged during the critical period between 1750 and 1850 it is shown that the social sciences were a crucial element in the conceptual and epistemic revolution which paralleled and partly underpinned the political and economic transformations of the modern world from a consistently comparative perspective a group of internationally leading scholars takes up fundamental issues such as the role of the enlightenment and the french revolution in the shaping of the social sciences the changing relationships between political theory and moral discourse the profound transformation of philosophy and the constitution of political economy and statistics

beginning with the 16th century this book charts the historical development of ideas that have sought to explain human nature scientifically and identifies the search for consciousness as the motivating factor in the development of human sciences
