fundamentals of workplace learning is a comprehensive guide to how people learn in the workplace and the issues and challenges involved examining the essential aspects of workplace learning and unravelling the various influences which affect the success of work based learners knud illeris presents a holistic model to explain how diverse individuals can be encouraged and invited to learn at work approaching workplace learning from the perspective of learners as human beings with complex social and psychological needs as opposed to resources to be managed this book examines in detail the key issues surrounding workplace learning including the workplace environment as a learning space workplace learning as competence development a multitude of different kinds of workplace learning arrangements job transcending learning initiatives the interaction between formal and informal learning environments the challenges presented by specific groups early school leavers elderly workers and the new young generation presenting conclusions on workplace learning and possibilities for the future this book focuses on a way forward while detailing the fundamentals of successful workplace learning it will appeal to everyone involved in understanding and improving learning in the workplace including educationalists business students managers personnel and educational leaders

this edited volume aims to evaluate the promises of workplace learning by addressing the following related questions what are current developments in theory that informs workplace learning research how can learning in the workplace be measured what is the impact of various organizational settings e g team based work and call centres on workplace learning which are the promising new avenues for research and which research based recommendations can be made to boost learning opportunities in various work contexts the topic is conceptualized as an interaction between the individual and the work context as a combination of individual and collective processes as a link between cognition and action and as a political process with a wide array of contributions from academics such as stephen billet tara fenwick and victoria marsick this volume will be an important research and reference tool with all those academics and practitioners who are interested in the field of human resource development targeted at researchers post graduate students and reflective practitioners and managers interested in the area workplace learning provides must read material for anyone wanting to advance the theory research and or practice of learning in the workplace

there is a growing interest in understanding learning in and through work and its relationship to what is required to be learnt for effective and productive working lives this book offers a range of emergent perspectives based on current research on learning through and for work the common focus among these perspectives is to understand how individuals engage in and learn through their work this includes how they learn about manage and respond to change in their work and develop approaches and responses to learning in through and for their working lives the key contribution of this book is to provide insights to support learning throughout working life in order to sustain individuals

capacities for effective productive and enduring working lives comprising 15 chapters the book offers perspectives from finland germany new zealand and australia and across a range of occupations and places of work individually and collectively these chapters make important contributions to learning about the self and agency at work and about learning work tasks the origins of this text were a desire to bring together the work of a group of recently completed and current doctoral candidates at jyvaskylä regensburg and griffith universities this goal has been achieved here as supported by collegiate activities among the editors contributors and their colleagues

the volume comprises a variety of research approaches that seek to explore and understand employees learning and development through and for work working life reveals challenges through technological economic and societal development that can only rudimentarily be addressed by formal education and training workplace learning becomes more and more important for employees and enterprises to successfully cope with these challenges workplace learning is a steadily growing field of educational research but it lacks so far a scholastic canon there is rather a diversity of research approaches this volume reflects this diversity by bringing together researchers from different countries and different theoretical backgrounds presenting their current research on topics that all are relevant for understanding presages processes and outcomes of workplace learning hence this volume is of relevance for researchers as well as practitioners in the field and policy makers

during the 1990s the workplace was rediscovered as a rich source of learning the issue of workplace learning has since received increasing attention from academics and practitioners alike but is still under researched empirically this book brings together a range of state of the art research papers addressing interventions to support learning in the workplace the authors are experienced international scholars who have an interest in making hrd and workplace learning practices more evidence based through practical relevant research although workplace learning is largely an autonomous process many organizations want to manage it as part of their broader hrd strategy there are limits however to the extent to which the complex dynamics of learning in the workplace can be guided in pre determined desirable directions this tension between the possible strengths of workplace learning and the limits of managing it is at the heart of this volume the book is broken into three sections the first section deals with workplace learning interventions including hrd practitioners strategies training and development activities and e learning programs the second section investigates the impact of social support or lack thereof in workplace learning such as mentoring coaching and socialization practices the third section addresses collective learning in the workplace looking at teams knowledge productivity and collaborative capability building

as policy makers increasingly focus on workplace learning as a way of improving organizational performance the debate about the learning organization has grown counterbalancing the often over optimistic assumptions made about the future of work and learning this book argues that without a contextualized analysis of the field our understanding of the learning environment is limited it reconsiders the true role and nature of workplace learning in context grounded in original research the book features case studies which illuminate how the workplace environment can provide both barriers to and opportunities for learning it explores learning in different organizational contexts and different countries sectors types of public and private sector organization and by different occupational groups this multi disciplinary approach provides a coherent perspective of the institutional organizational and pedagogical contexts of workplace learning and as a result policy makers trainers trade unionists and educators alike will

welcome this groundbreaking text as it gives the intellectual tools required to understand how learning in the workplace can be improved

informal learning in the workplace critically examines definitions of informal learning focusing on its application in a variety of workplace contexts

explores workplace learning as a means of enhancing both work performance and the quality of working life identifies characteristics of high performance work organizations considers the implementation of high performance work practices and investigates how far these practices are embedded in different countries examines ways in which public policy can be used to encourage organizations to make more effective use of the skills of their employees

workplace learning and performance refers to the interlinked practices of performing job related tasks building capacity to perform those tasks as in work and learning and measuring outcomes of those efforts in terms of both the individual s capacity to perform and the impact on the organization that sponsored the learning program in the area of diversity future research might address these issues understanding of the causes of problems faced by workers in various demographic groups and increasing opportunities for these workers by better appreciation of their needs and the roots of the prejudice they face defining the field of workplace learning and performance although many people use the terms workplace learning and performance wlp training and development human resource development learning and development and work and learning to refer to the same general types of work each of these terms carries a slightly different definition training and development refers to two types of activiti the goal of the literature review was to produce comprehensive bibliographies in each area synthesize the key findings in the literature in the area identify gaps in the literature make recommendations for future research canadian society for training and development field review workplace learning and performance 15 each of the four areas was reviewed separately in response to globalization and the increased availability of information technology in the workplace organizations continually look for ways to reduce costs and improve service and these efforts in turn result in redefinitions of jobs and the competencies needed to succeed in them

the knowledge skills and guidance managers need to become true learning leaders now more than ever a versatile well trained workforce is critical to an organization s success written for managers from a wide range of functional areas this book gives any manager responsible for training the tools to help employees learn more perform better and work smarter this comprehensive up to date guide targets the roles necessary to manage training and learning in an organization champion builder performance consultant supporter administrator and keeper of the budget filled with expert information and real world scenarios this new book uses diagrams charts exercises and a collection of tools for training delivery to help managers anticipate and solve a broad range of training challenges for their own departments or for the entire organization how to manage training facilitating workplace learning for high performance delivers the knowledge skills and guidance managers need to become true learning leaders readers will learn how to develop a sample business plan for training deliver learning experiences in a wide range of formats create programs for peer to peer assistance and collegial problem solving foster coaching and mentoring in the workplace promote learning and training opportunities at all levels in the organization this is an ebook version of the ama self study course if you want to take the course for credit you need to either purchase a hard copy of the course through amaselfstudy org or purchase an online version of the course through flexstudy
