holy books or scripture fewer books have been written like this one which go behind the scenes of history lay bare the feelings behind the philosophies and document the painful and joyful inner path along which historical events and philosophical ideas emerge this book is intensely even shockingly personal not clinical or abstract or detached it is an intimate detailed sensual and sometimes disturbing account of a life lived on the cusp that bridges time and eternity its focus is narrow it does not reveal much at all about anyone's visible public life or accomplishments but it explores in great depth the invisible contents of minds hearts and souls the scriptures and scriptural commentaries of most religions describe a path to salvation or bliss and provide instructions or guideposts for moving along the path but they are still only theoretical hypothetical mythical or metaphorical accounts this book seeks to show how the theories and hypotheses play out pragmatically in real time and space how the myths come alive in flesh and spirit how the metaphors become the very things they symbolize how does daily life look from inside someone in the throes of awakening how does she know who or what she is how is her destiny revealed how do seemingly ordinary mundane events become miracles this book begins to answer those questions
