in adorno s theory of philosophical and aesthetic truth owen hulatt undertakes an original reading of theodor w adorno s epistemology and its material underpinnings deepening our understanding of his theories of truth art and the nonidentical hulatt s novel interpretation casts adorno s theory of philosophical and aesthetic truth as substantially unified supporting the thinker s claim that both philosophy and art are capable of being true for adorno truth is produced when rhetorical texture combines with cognitive performance leading to the breakdown of concepts that mediate the experience of the consciousness both philosophy and art manifest these features although philosophy enacts these conceptual issues directly while art does so obliquely hulatt builds a robust argument for adorno s claim that concepts ineluctably misconstrue their objects he also puts the still influential thinker into conversation with hegel husserl frazer sohn rethel benjamin strawson dahlhaus habermas and caillois among many others

after the birth of the protestant ecumenical movement in the late nineteenth and early twentieth centuries and following the first great wave of universal christian ecumenism in the 1960s and 1970s after the second vatican council prominent theologians of nearly every ecclesial tradition charted new territory in the last decades of the twentieth century they crossed boundaries within their own ecclesial traditions and built bridges to other christian churches churches that were once

excluded from fellowship in the development of these new programs of ecumenical theology the theologians redefined their own confessional identities and in many cases crossed the liberal conservative divide within their own traditions this volume introduces this fascinating dynamic of theological mediation redefinition and generosity it shows how the ecumenical impulses which were directed outwardly to other traditions had reflexive effects inwardly working in the realms of both historical and systematic theology the essays in this volume provide a critical analysis of the history of this general theological sentiment and offer an outlook for its future contributors brian d mclaren foreword paul silas peterson introduction part one ecumenical reform theologies andrew meszaros yves congar the birth of catholic ecumenism matthew l becker edmund schlink ecumenical theology dorothea sattler otto hermann pesch ecumenical scholasticism ronald t michener george lindbeck ecumenical unity through ecclesial particularity nikolaos asproulis john d zizioulas a pioneer of ecumenical dialogue and christian unity part two overcoming liberal conservative polarities ben fulford hans frei beyond liberal and conservative friederike nussel wolfhart pannenberg liberal orthodoxy jay t smith stanley j grenz the evangelical turn to postliberal theological method part three boundary crossings in philosophical systematic and ethical theology william e myatt david tracy difference unity and the analogical imagination christophe chalamet robert jenson god s way and the ways of the church victoria lorrimar stanley hauerwas witnessing communities of character christine m helmer marilyn mccord adams philosophy theology and prayer part four ecumenical theology today wolfgang vondag pentecostalism and christian orthodoxy revision revival and renewal johanna rahner shifting paradigms future ecumenical challenges michael amaladoss theology today in india ecumenical or interreligious bernd oberdorfer next steps and visions lutheran perspectives on doctrinal ecumenism

political theorists jeremy elkins and andrew norris observe that american political culture is deeply ambivalent about truth on the one hand voices on both the left and right make confident appeals to the truth of claims about the status of the market in public life and the role of scientific evidence and argument in public life human rights and even religion on the other hand there is considerable anxiety that such appeals threaten individualism and political plurality this anxiety elkins and norris contend

has perhaps been greatest in the humanities and in political theory where many have responded by either rejecting or neglecting the whole topic of truth the essays in this volume question whether democratic politics requires discussion of truth and if so how truth should matter to democratic politics while individual essays approach the subject from different angles the volume as a whole suggests that the character of our politics depends in part on what kinds of truthful inquiries it promotes and how it deals with various kinds of disputes about truth the contributors to the volume including prominent political and legal theorists philosophers and intellectual historians argue that these are important political and not merely theoretical questions

the audience for this book is twofold 1 teacher programs in colleges that are training the next generation of christian school teachers and 2 instructors already practicing their vocation in the christian academy the present volume seeks to wed the philosophy of biblical integration with the practice of biblical integration biblical integration is hard work therefore many concrete examples will be used to facilitate understanding of the ideas

this volume brings philosophers art historians intellectual historians and literary scholars together to argue for the philosophical significance of michael fried s art history and criticism it demonstrates that fried s work on modernism artistic intention the ontology of art theatricality and anti theatricality can throw new light on problems in and beyond philosophical aesthetics featuring an essay by fried and articles from world leading scholars this collection engages with philosophical themes from fried s texts and clarifies the relevance to his work of philosophers such as ludwig wittgenstein stanley cavell morris weitz elizabeth anscombe arthur danto george dickie immanuel kant friedrich schiller g w f hegel arthur schopenhauer friedrich nietzsche denis diderot maurice merleau ponty roland barthes jacques rancière and søren kierkegaard as it makes a case for the importance of fried for philosophy this volume contributes to current debates in analytic and continental aesthetics philosophy of action philosophy of history political philosophy modernism studies literary studies and art theory

when oscar wilde was convicted of gross indecency in 1895 a reporter for the national observer wrote that there was not a man or a woman in the english speaking world possessed of the treasure of a wholesome mind who is not under a deep debt of gratitude to the marquis of queensberry for destroying the high priest of the decadents but reports of the death of decadence were greatly exaggerated

and today more than one hundred years after the famous trial and at the beginning of a new millennium the phenomenon of decadence continues to be a significant cultural force indeed decadence in the nineteenth century and in our own period has been a concept whose analysis yields a broad set of associations in perennial decay emily apter charles bernheimer sylvia molloy michael riffaterre barbara spackman marc weiner and others extend the critical field of decadence beyond the traditional themes of morbidity the cult of artificiality exoticism and sexual nonconformism they approach the question of decadence afresh reevaluating the continuing importance of late nineteenth century decadence for contemporary literary and cultural studies

what is narrative what is distinctive about the great literary narratives in virtue of what is a narrative fictional or non fictional in this important new book peter lamarque one of the leading philosophers of literature at work today explores these and related questions to bring new clarity and insight to debates about narrative in philosophy critical theory and narratology he highlights opacity as a feature of literary narratives and examines the implications for our understanding of fictional worlds and fictional characters throughout he challenges received views about narrative questioning the indispensability of narrative in an individual's self conception and the importance of both truth and emotion as measures of literary greatness he reflects on the non fiction novel arguing that it does not weaken the distinction between fiction and no fiction the book offers a compelling and original account of these and other issues making a critical contribution to topical and wide ranging debates

being in time to the music from the ground up is a work in phenomenology where

this term is broadly defined comprehending plato heidegger hegel and marx the most direct referent is hegel together with the theoretical revolution that he initiated with phenomenology of mind this text's more general purpose is to set the tone for a 21st communism based upon the idea of dancing with death assuming full responsibility for one's mortality and abandoning the self to love as the meaning of existence this dance is choreographed through my conversations with the above mentioned writers in conversing with them i aim to displace if not usurp them from the throne of honour which is nothing more than the authority borrowed from me by this i do not intend to deny completely their other to me character however they exist or even figure for me both in the sense of of count having importance as those that i read and by which i read myself they have borrowed my authority namely my own potential to be an author so reading them is to re-assume that borrowed authority the life of the reader to paraphrase barthes begins with the death of the author

writing in the fourth century b.c. in an athens that had suffered a humiliating defeat in the peloponnesian war plato formulated questions that have haunted the moral religious and political imagination of the west for more than 2 000 years what is virtue how should we love what constitutes a good society is there a soul that

outlasts the body and a truth that transcends appearance what do we know and how do we know it plato s inquiries were all the more resonant because he couched them in the form of dramatic and often highly comic dialogues whose principal personage was the ironic teasing and relentlessly searching philosopher socrates in this splendid collection scott buchanan brings together the most important of plato s dialogues including protagoras the symposium with its barbed conjectures about the relation between love and madness phaedo and the republic his monumental work of political philosophy buchanan s learned and engaging introduction allows us to see plato both as a commentator on his society and as a shaper of the societies that followed who bequeathed to us a hunger for the ideal as well as a redeeming habit of humane skepticism

this book is the first full length study of the ongoing debate over the status of our disenchanted world a world stripped of mysterious and supernatural forces by the demythologizing power of reason and modern science it draws together for the first time the writings of various theorists on this theme such as georg lukacs theodor adorno and jürgen habermas providing a coherent overview of an evolving dialogue as well as germain s own evaluation of the disenchantment problematic
