thanks to these generous donors for making the publication of the books in this series possible lloyd e cotsen the maurice amado foundation national endowment for the humanities and the national foundation for jewish culture tales from arab lands presents tales from north africa yemen lebanon syria and iraq in the latest volume of the most important collection of jewish folktales ever published this is the third book in the multi volume series in the tradition of louis ginzberg s timeless classic legends of the jews the tales here and the others in this series have been selected from the israel folktale archives ifa named in honor of dov noy at the university of haifa a treasure house of jewish lore that has remained largely unavailable to the entire world until now since the creation of the state of israel the ifa has collected more than 20 000 tales from newly arrived immigrants long lost stories shared by their families from around the world the tales come from the major ethno linguistic communities of the jewish world and are representative of a wide variety of subjects and motifs especially rich in jewish content and context each of the tales is accompanied by in depth commentary

that explains the tale's cultural, historical and literary background and its similarity to other tales in the ifa collection and extensive scholarly notes there is also an introduction that describes the culture and its folk narrative tradition, a world map of the areas covered, illustrations, biographies of the collectors and narrators, tale type and motif indexes, a subject index and a comprehensive bibliography. Until the establishment of the ifa we had had only limited access to the wide range of Jewish folk narratives. Even in Israel, the gathering place of the most wide-ranging cross-section of world Jewry, these folktales have remained largely unknown. Many of the communities no longer exist as cohesive societies in their representative lands. The Holocaust, migration and changes in living styles have made the continuation of these tales impossible. This series is a monument to a rich but vanishing oral tradition. yoque en el campo he nacido dig6 que mis cantos son para los unos sonidos y para otros. Intencion h. Hernandez Martin Fierro. The period of active influence of the people on desert environments in central Asia counts more than 2 000 years. It includes several stages of the social and the economic development of human society from primitive culture of hunters to developed modern society with great changes of environment and nature. Remaking heritage of the past is one of the main causes of land degradation in central Asia. So only historical analysis of relations between the man and the desert could give information for awareness of desertification. What an idea have

the people about the desert in the mind of many people desert is identified with a sterile lifeless and gloom land unsuitable for life the mass media specially the cinema supports this idea very popular subject of many films is the death of travelers in the desert from thirst even the names of hot winds the ghibly insahara the samum in arabian desert and the afganets in central asia fill the minds of people with horror there are many legends about armies buried in the sand about flourishing oases and towns covered with sand drifts in these legends the truth is mixed with fiction but as known the truth is stronger than fiction
