some of the most important and best lessons in a doctor's career are learnt from mistakes however an awareness of the common causes of medical errors and developing positive behaviours can reduce the risk of mistakes and litigation written for foundation year doctors trainees and general practitioners and unlike any other clinical management title available avoiding errors in general practice identifies and explains the most common errors likely to occur in an outpatient setting so that you won't make them the first section in this brand new guide discusses the causes of errors in general practice the second and largest section consists of case scenarios and includes expert and legal comment as well as clinical teaching points and strategies to help you engage in safer practice throughout your career the final section discusses how to deal with complaints and the subsequent potential medico legal consequences helping to reduce your anxiety when dealing with the consequences of an error invaluable during the foundation years specialty training and for consultants avoiding errors in general practice is the perfect guide to help tackle the professional and emotional challenges of life as a gp

in the sixth edition of this work john fry has reverted to the format of the earlier editions published in 1965 1970 and 1973 and has presented statistical data drawn widely from many sources general practice in the united kingdom and elsewhere throughout the world has undergone many changes in the past decade this new edition brings the available statistical information up to date and indicates the way ahead general practice the college and the national health service have been closely linked in effecting change the membership of the college continues to grow and its influence in changing the face of general practice in the united kingdom is significant john fry's new book presents that characteristic blend of fact and personal opinion which was so successful in earlier editions and so valuable to general practice and others in primary health care once again he has shown what can be achieved by one man based on his own work and those of others in general practice john lawson rcgp 1983 president of the royal college of general practitioners vi preface the present state and future needs series had its roots in the dark days of the early 1960s when morale in general practice was low and when numbers of new entrants were actually going down they were the days of mass emigration of doctors from britain and the national health service the fourth and fifth editions were entitled trends in general practice 1977 and 1979

secondary causes of hypertension in general practice by dr yusof mutahar is the second book by australian doctor yusof mutahar the book was published in 10 january 2020

this study of general practice and the attitudes of patients and general practitioners to it is the most significant book yet written about the nhs this was how the reviewer in the british medical journal reviewed ann cartwright's earlier book patients and their doctors in general practice revisited originally published in 1981 ann cartwright and robert anderson compare the experiences and views described in the first study carried out in 1964 with those revealed by a second survey in 1977 in the intervening period there were a great many changes in the organization of general practice for example appointment systems and nurses working in the surgery became the rule rather than the exception and the number of doctors working in health centres or using deputizing services rose dramatically this study shows how the basic patient doctor relationship has been affected by these changes a fundamental feature of the survey is the demonstration that the attitudes and practices of patients and doctors are linked and that it is possible to relate the experiences and degree of satisfaction of patients to the doctor's age sex size of practice equipment ancillary help and indeed to the doctor's views and habits by bringing the picture of general practice up to date ann cartwright and robert anderson provided the basic data for any discussion of primary health care in this country at the time
