most addictive behavior is rooted in some type of loss be it the death of a loved one coming to terms with limitations set by chronic health problems or the end of a relationship by turning to drugs and alcohol people who have suffered a loss can numb their grief in the process they postpone their healing and can drive themselves further into addiction the mindfulness workbook for addiction offers readers an effective program for working through their addiction and grief with cognitive behavior therapy cbt dialectical behavior therapy dbt and acceptance and commitment therapy act created by a psychologist who works for the department of veterans affairs and a marriage and family therapist who works for sharp mesa vista hospital this mindfulness training workbook is effective for treating the emotion dysregulation stress depression and grief that lie at the heart of addiction no matter the loss the mindfulness skills in this workbook help readers process their grief determine the function their addiction is serving and replace the addiction with healthy coping behaviors

behavioural addiction in women gives insight into ongoing research efforts and clinical developments across the globe focusing specifically on women with behavioural addictions the book brings together an international network of clinicians and researchers to offer a unique transcultural female perspective on female specific aspects of addiction which is underrepresented in the available literature by compiling both research and clinical spotlights focusing on women with behavioural addictions across the six continents the book is an important first step towards building a shared knowledge base on the subject starting from the importance of female specific diagnostic criteria to new therapeutic strategies prevention programs and harm reduction approaches this book will help us gain a better understanding of ongoing work and where to allocate our attention and efforts for helping a vulnerable and in many areas of the world still underserved and economically disadvantaged population the book will be of great interest to researchers and clinicians in the field of addiction

this book offers a multidisciplinary approach to the phenomenon of addiction including a discussion of its anthropological neurological psychiatric and social aspects the editors have maintained this multidisciplinary criterion since the first volume of the psychiatry and neuroscience update collection approaching a topic from multiple points of view guides the mentality to open to biological and psychological relationships and facilitates translational extrapolations the ability to establish relationships closer or more distant but always binding is

thus stimulated whether for study research or the interpretation of clinical reality as in previous volumes the book opens with a part dedicated to anthropological and philosophical aspects thus ensuring the validity of the humanistic aspect intersubjectivity epistemological reflections the meaning of ecstasy and philosophical reflection leading to therapy are explored part 2 from basic neurosciences to human brain presents a set of basic investigations with high translational content this corresponds with the editors intention to build bridges here between the basic and the clinical favoring the translational chapters present topics of interest to both fields such as the neurobiology of addictions cocaine and benzodiazepines part 3 establishes links between neurosciences learning teaching and the social environment it begins with a chapter on executive functioning before discussing excessive use of computer technology and educational interventions for patients with alcohol addiction the fourth part of the book attempts to explain pathological human behavior it is about establishing links between brain disorders and diseases in the strict sense among other topics chapters deal with cognitive dysfunction in addiction neuroimaging and stigma around substance use disorders psychiatry and neuroscience update addiction from laboratory and anthropology to clinical practice vol v was edited and authored by a multidisciplinary group of authors and will be vital for an equally multidisciplinary group of readers psychiatrists psychologists neuroscientists and any other clinician or researcher that is interested in addictions those in the humanities particularly anthropologists and philosophers will find the first part of great interest
