advaita and nondual teachings are about finding the truth this truth is not a dogma that you study it is the truth about life â the truth about who you really are this truth is discovered not learned it is discovered through sincerely inquiring who am i what you discover is that who you are has nothing to do with self images or roles and everything to do with what you experience when you ask this question what you discover is that who you think of yourself as is just that â a thought and beyond that thought is a great mystery â an experience of nothingness which is your true nature nothing personal leads you to the experience of your true nature and helps you explore its depth through exposition questions and dialogues it brings you to a place of realization of the truth you are that spacious awareness in which everything appears including your thoughts and feelings your thoughts and feelings do not define you but merely appear within consciousness along with everything else this consciousness is who you are nothing personal offers a gentle and persistent

guide to seeing the underlying truth of your ultimate nature in this concisely edited collection of satsang talks and dialogues you are invited to honor the limitless love that is your true nature and to enjoy the sweet richness that is revealed when you give this truth your undivided attention from the introduction unlike most books this one is not meant to add to your knowledge or understanding it is about the truth that cannot be spoken or written although the truth cannot be contained in this or any other book each word written here is intended to point you toward that truth many of the words and ideas may seem paradoxical or contradictory because what they point to is larger than our conceptual frameworks many questions are asked which are not answered anywhere in the book find out what the experience is like to ask yourself these questions even if they leave you emptier of knowledge and understanding in this emptying you just may discover what you are looking for the truth is revealed when we allow ourselves to not know so i invite you to set aside all that you know for the time being and allow yourself to look with innocent eyes at what the words are attempting to unveil take the time to experience the unspoken truth in each section before moving on to the next resist the temptation to read these words with your mind which is likely to rush right past the truth allow the words to sink into your heart and reveal the truth of who you are

these essays examine the significance of balance between the opposites in order to understand god and the world the author argues that opposites the subject and object mind and nature good and evil truth and falsehood are not separated from each other but interdependent in the relational paradigm each cannot exist without the other creative advancement is achieved by their dynamic tensions the paradoxical relationship between the opposites is not posited in the mechanistic model in which opposites are recognized as separate entities and thereby antagonists rather they are dialectical and creative in the organic model based on this organic model the relationship between god and the world is not hierarchical but interdependent in the organic model god is not described simply as a transcendent reality in a dualistic structure of god and the world god reveals god self in harmonious order and pattern as the ultimate principle formed in the world in other words god reveals god self in the relative contexts of the opposites good and evil true and false unlike aristotle's law of contrast god is both a transcendent and a immanent which is the basic logic of the organic model in this context god is different from eternal reality such as plato's idea or the transcendent god developed

in the western tradition in this text the author explores how the complex of divine reality entails the dialogue of differences in a constructive way using inter religious dialogue and religion nature dialogue as examples the author also brings the theme of paradox into his discussion to connect the west with the east and explore how it can be a positive method of understanding god and the world in the organic model which can in turn be a key to the understanding of the common good
