deities demons and angels became important protagonists in the magic of the late antique world and were also the main reasons for the condemnation of magic in the christian era supplicatory incantations rituals of coercion enticing suffumigations magical prayers and mystical songs drew spiritual powers to the humain domain next to the magician s desire to regulate fate and fortune it was the communion with the spirit world that gave magic the potential to purify and even deify its practitioners the sense of elation and the awareness of a metaphysical order caused magic to merge with philosophy notably neoplatonism the heritage of late antique theurgy would be passed on to the arab world

and together with classical science and learning would take root again in the latin west in the high middle ages the metamorphosis of magic laid out in this book is the transformation of ritual into occult philosophy against the background of cultural changes in judaism graeco roman religion and christianity this volume the first in the new series groningen studies in cultural change offers the papers presented at the workshop the metamorphosis of magic from late antiquity to the early modern period held from 22 to 24 june 2000 and organised by jan n bremmer and jan r veenstra the papers have been written by scholars from such varying disciplines as classics theology philosophy cultural history and law their contributions shed new light upon several old obscurities they show magic to be a significant area of culture and they advance the case for viewing transformations in the lore and practice of magic as a barometer with which to measure cultural change

mobility and travel have always been key characteristics of human societies having various cultural social and religious aims and purposes travels shaped religions and societies and were a way for people to understand themselves this world and the transcendent this book analyses travelling in its social context in ancient and medieval societies why did people travel how did they travel and what kind of communal networks and negotiations were inherent in their travels travel was not only the privilege of the wealthy or the male but people from all social groups genders and physical abilities travelled their reasons to travel varied from profane to sacred but often these two were intermingled in the reasons for travelling the chapters cover a long chronology from antiquity to the end of the middle ages offering the reader insights into the developments and continuities of travel and pilgrimage as a phenomenon of vital importance

this book brings together recent developments in modern migration theory a wide range of sources new and old tools revisited from gis to epigraphic studies from stable isotope analysis to the study of literary sources and case studies from the ancient eastern mediterranean that illustrate how new theories and techniques are helping to give a better understanding of migratory flows and diaspora communities in the ancient near east a geographical gap has emerged in studies of historical migration as recent works have focused on migration and mobility in the western part of the roman empire and thus fail to bring a significant contribution to the study of diaspora communities in the eastern mediterranean bridging this gap represents a major scholarly desideratum and by drawing upon the experiences of previously neglected migrant and diaspora communities in the eastern mediterranean from the hellenistic period to the early mediaeval world this collection of essays approaches migration studies with new perspectives and methodologies shedding light not only on the study of migrants in the ancient world but also on broader issues concerning the rationale for mobility and the creation and features of diaspora identities

after the discovery of the ergotism epidemics poisoning caused by ingesting the fungal toxin of rye and its etiology eighteenth century physicians interpreted medieval chronicles in their medical texts in order to recognize the occurrences of ergotic diseases through

retrospective diagnosis they assumed that st anthony s fire and ignis sacer sacred fire recorded in medieval texts represented the same disease ergotism this interpretative method lacking a textual basis in the sources has been incorrectly followed by historians till now this book examines this historical prejudice through textual analysis comparing diverse medieval and early modern sources a striking semantic complexity emerges that changes the concept of st anthony s fire and modifies our understanding of diseases in general this research illuminates aspects of the history of medicine society and hospitals

this publication is significant within the field of jewish studies and beyond the essays include comparative material and have the potential to reach scholarly audiences in many related fields but are written to be accessible to all with the introductions in every chapter aimed at orienting the enthusiast from outside academia to each time and place
