in defense of the land ethic essays in environmental philosophy brings into a single volume j baird callicott's decade long effort to articulate defend and extend the seminal environmental philosophy of aldo leopold a leading voice in this new field callicott sounds the depths of the proverbial iceberg the tip of which is the land ethic the land ethic callicott argues is traceable to the moral psychology of david hume and charles darwin's classical account of the origin and evolution of hume's moral sentiments leopold adds an ecological vision of organic nature to these foundations how can an evolutionary and ecological environmental ethic bridge the gap between is and ought how may wholes species ecosystems and the biosphere itself be the direct objects of moral concern how may the intrinsic value of nonhuman natural entities and nature as a whole be justified in addition to confronting and resolving these distinctly philosophical queries callicott engages in lively debate with proponents of animal liberation and rights finally to

achieve an integrated theory of animal welfare and environmental ethics he critically discusses the land ethic that is alleged to have prevailed among traditional american indian peoples and points toward a new and equally revolutionary environmental aesthetic

martin d yaffe s judaism and environmental ethics a reader is a well conceived exploration of three interrelated questions does the hebrew bible or subsequent jewish tradition teach environmental responsibility or not what jewish teachings if any appropriately address today s environmental crisis do ecology judaism and philosophy work together or are they at odds with each other in confronting the current crisis yaffe s extensive introduction analyzes and appraises the anthologized essays each of which serves to deepen and enrich our understanding of current reflection on judaism and environmental ethics brought together in one volume for the first time the most important scholars in the field touch on diverse disciplines including deep ecology political philosophy and biblical hermeneutics this ambitious book illustrates precisely because of its interdisciplinary focus how longstanding disagreements and controversies may spark further interchange among ecologists jews and philosophers both accessible and thoroughly scholarly this dialogue will benefit anyone interested in ethical and religious considerations of contemporary ecology

employing a groundbreaking rhetorical and ecocritical approach this volume advances personification anthropomorphism as a means of representing the natural world and arguing for its worth outside of human use

in aldo leopold and an ecological conscience ecologists wildlife biologists and other professional conservationists explore the ecological legacy of aldo leopold and his a sand county almanac and his contributions to the environmental movement the philosophy of science and natural resource management twelve personal essays describe the enormous impact he has had on each author from influencing the daily operations of the u s fish and wildlife service and the creation of a land use ethics guide for forest service personnel to much needed inspiration for continuing on in today s large complex and often problematic world of science here is aldo leopold as a mentor friend and companion and an affirmation of his hope that science will continue to be practiced in the cause of conservation

bringing together ecology evolutionary moral psychology and environmental ethics j baird callicott counters the narrative of blame and despair that prevails in contemporary discussions of climate ethics and offers a fresh more optimistic approach whereas other environmental ethicists limit themselves to what callicott calls rational individualism in discussing the problem of climate change only to conclude that essentially there is little hope that anything will be done in the face of its perfect moral storm in stephen gardiner s words callicott refuses to

accept this view instead he encourages us to look to the earth itself and consider the crisis on grander spatial and temporal scales as we have failed to in the past callicott supports this theory by exploring and enhancing aldo leopold s faint sketch of an earth ethic in some fundamentals of conservation in the southwest a seldom studied text from the early days of environmental ethics that was written in 1923 but not published until 1979 after the environmental movement gathered strength
