no religious or mystical tradition is immune from the presence of spiritual abuse for wherever there are people who are seeking to become closer to essential truths purpose and meaning there will be individuals seeking to generate counterfeit currency to offer to those who are unaware or incautious toward the dangers which lie in wait along the spiritual path fraudulent teachers might call themselves a guru shaykh rimpoché monk priest imam apostle avatar or minister they might also call themselves educators revolutionaries political leaders and freedom fighters whatever they might call themselves if they seek to gain control over others through techniques of undue influence then they are propagators of spiritual abuse this book is relevant to individuals from all spiritual traditions but often focuses on the sufi spiritual tradition

whether we align ourselves with the tradition of the saint the master or the prophet it is the commitment deep within our being that springs to the surface as our ideal that will dictate the path which is ours to tread we grow in our dedication to service through our intuited path in a natural expansion of consciousness to manifest that noble honorable and timeless tradition of service to the well being of those in physical mental emotional or spiritual need proves itself to be the true sign of illumination this is an experience beyond the ordinary range of the senses that the sufis have called the breath of the beloved only a lover enraptured in the presence of the beloved will dare to jump with fearless disregard into the unknown through sainthood mastery or prophethood via spirituality mysticism or religion the truth is revealed to us when we finally have the courage to look into the depth of our heart there we discover through our pain our suffering and our joy the connectedness of our lives with the world at large

he who wants to observe the reality can do so even on a single verse whether that be a manifestation in worldly form or a literal verse encrypted in the quran for just as the part contains the whole a single verse can be a gateway into endless realizations both inward and outward in this light this tiny

yet very special selection and interpretation of verses by ahmed hulusi released as a preliminary to decoding the quran is like an invitation to man to read and know himself as only through a comprehensive knowledge of the self we have a real chance to know the one so let us forego our predetermined conditionings and read as though we are reading for the very first time let us dive into this ocean of knowledge and melt away our constructs fragmenting us from the absolute one let us enter this portal stripped from the falsity of our identities and begin the enthralling journey from ourselves to ourselves from the one we came and to the one we shall return quran 2 156
