pathways is national geographic learning s new five level academic skills series that features reading writing and listening speaking strands to help learners develop the language skills needed to achieve academic success learners develop academic literacy skills through content images and video from national geographic this innovative series provides learners with a pathway to success with pathways learners develop academic literacy skills connect to the real world through content from national geographic achieve academic success

no two students in grades 4-8 are identical and many struggle with literacy for different reasons using a teacher-friendly hands-on approach this eminently practical book walks educators through the nuts and bolts of literacy intervention in the middle grades highlights include north star principles to orient instruction an assessment flowchart and extended case studies of three middle grades learners the book offers evidence-based intervention practices for targeting specific literacy components including word recognition fluency vocabulary and comprehension teachers are guided to plan structured but flexible interventions that promote literacy growth and engagement sample lesson plans and clear engaging figures illustrate how to make literacy intervention work for all students

tying together almost four decades of neo-piagetian research cognitive development provides a unique critical analysis and a comparison of concepts across neo-piagetian theories like piaget neo-piagetian theorists take a constructivist approach to cognitive development are broad in scope and assume that cognitive development is divided into stages with qualitative differences unlike piaget however they define the increasing complexity of the stages in accordance with the child's information processing system rather than in terms of logical properties this volume illustrates these characteristics and evidences the exciting possibilities for neo-piagetian research to build connections both with other theoretical approaches such as dynamic systems and with other fields such as brain science the opening chapter provides a historical orientation including a critical distinction between the logical and the dialectical piaget in subsequent chapters the major theories and experimental findings are reviewed including pascual leone's theory of constructive operators halford's structuralist theory fischer's dynamic systems approach to skills case's theory of central conceptual structures siegler's microgenetic approach and the proposals of mounoud and karmiloff-smith as well as the work of others including demetriou and de ribaupierre the interrelation of emotional and cognitive development is discussed extensively as is relevant non-neo-piagetian research on information processing the application of neo-piagetian research to a variety of topics including children's problem solving psychometrics and education is highlighted the book concludes with the authors' views on possibilities for an integrated neo-piagetian approach to cognitive development

the need to know why as well as how children and youth respond as they do to reading instruction has guided the selection of this book's content the second edition of this title originally published in 1990 has retained and elaborated upon the three major themes previously presented that reading is a linguistic process that motivation the affective domain may be as important in learning to read as the cognitive domain and that the reality of learning theory is to be found in the mechanisms of the brain where information is mediated and memory traces are stored the text integrates views from cognitive psychology psycholinguistics and neuropsychology as they relate to reading and writing a learning motivation model is provided to present associative learning conceptualization and self-directed reading in a hierarchical relationship with distinct cognitive and affective components the distinction between beginning and proficient reading is maintained throughout the text

this book provides a comprehensive conceptual framework and hands-on practical tools for reading assessment the authors present a clear roadmap for

evaluating k 8 students strengths and weaknesses in each of the basic competencies that good readers need to master teachers learn how to select administer and interpret a wide range of formal and informal assessments and how to use the results to improve instruction in a large size format for easy photocopying the book includes 30 reproducible assessment tools provided by publisher

this book looks at the changing nature of literacy and at the way in which new and different literacies are emerging in the first part of the 21st century it considers how children are shaping and being shaped by these changes it also looks at how teachers need to bridge the gap between children s out of school interests and school based curriculum demands this edited collection which features chapters by international experts and voices in the field aims to take a closer look at and demystify some of the influences on literacy in the 21st century e g popular culture multi modal texts email text messaging and critical literacy enhance teachers awareness of these developments and show how they can use them to improve the literacy skills of their pupils show through the implications for practice sections how teachers can find different but straightforward ways of linking children s personal out of school interests with the demands of the school curriculum

sacred pathways reveals nine distinct spiritual temperaments and their strengths weaknesses and tendencies to help you improve your spiritual life and deepen your personal walk with god it s time to strip away the frustration of a one size fits all spirituality and discover a path of worship that frees you to be you experienced spiritual directors pastors and church leaders recognize that all of us engage with god differently and it s about time we do too in this updated and expanded edition of sacred pathways gary thomas details nine spiritual temperaments and like the enneagram and other tools do with personality encourages you to investigate the ways you most naturally express yourself in your relationship with god he encourages you to dig into the traits strengths and pitfalls in your devotional approach so you can eliminate the barriers that keep you locked into rigid methods of worship and praise plus as you begin to identify and understand your own temperament you ll soon learn about the temperaments that aren t necessarily you but that may help you understand the spiritual tendencies of friends family and others around you whatever temperament or blend of temperaments best describes you rest assured it s not by accident it s by the design of a creator who knew what he was doing when he made you according to his own unique intentions if your spiritual walk is not what you d like it to be you can change that starting here sacred pathways will show you the route you were made to travel marked by growth and filled with the riches of a close walk with god a sacred pathways video bible study is also available for group or individual use sold separately
