essential reading for business leaders and policymakers an in depth investigation of

red teaming the practice of inhabiting the perspective of potential competitors to gain a strategic advantage red teaming the concept is as old as the devil s advocate the eleventh century vatican official charged with discrediting candidates for sainthood today red teams are used widely in both the public and the private sector by those seeking to better understand the interests intentions and capabilities of institutional rivals in the right circumstances red teams can yield impressive results giving businesses an edge over their competition poking holes in vital intelligence estimates and troubleshooting dangerous military missions long before boots are on the ground but not all red teams are created equal indeed some cause more damage than they prevent drawing on a fascinating range of case studies red team shows not only how to create and empower red teams but also what to do with the information they produce in this vivid deeply informed account national security expert micah zenko provides the definitive book on this important strategy full of vital insights for decision makers of all kinds

integrating the ethics of medicine and the ethics of war military medical ethics in contemporary armed conflict offers theorists and practitioners clinicians and commanders the tools they need to distribute scarce medical resources in wartime emphasizing that military medicine s goal is to maintain unit readiness and the force capabilities necessary to wage just war michael l gross instructs readers on when and how compatriot and host nation war fighters local civilians detainees and veterans should receive medical attention readers will see how medicine functions also as a weapon of war to this end military forces deploy medical care to win local hearts and minds and harness medical science to enhance war fighter capabilities

an original contribution to our understanding of a phenomenon that is reshaping the world this title thoroughly discusses the transformation of the energy security policy arena brought on by two dramatic developments the increased potential availability of energy in many parts of the world on the supply side and on the demand side increasing concerns over the harmful effects on the environment brought on by the use of fossil fuels an in depth discussion specifically focuses on what energy security means to different countries and examines which of those countries appear to be

managing their energy climate transitions successfully and which are having a more difficult time adapting to the new environment part 1 introduces the topic covering the main themes and provides an overview of the chapters part 2 provides a framework for policy evaluation considering the evolving factors affecting energy security and the energy climate policy trilemma parts 3 to 6 discuss energy transitions in the carbon producing countries saudi arabia canada iran russia mexico in intermediate carbon producing consuming countries china united states uk brazil argentina south africa in carbon consuming countries germany japan south korea israel india spain and finally in carbon reduction countries france denmark switzerland part 7 looks at attempts at regional international cooperation part 8 considers the prospects for the future examining technological breakthroughs this title builds on the theme of unfolding energy transformations driven by but increasingly constrained by climate environmental considerations it is ideal for researchers and students in the areas of environmental politics and policy climate change and energy and climate security as well as for academics and professionals

highlights emerging trends and concerns regarding armed violence and small arms proliferation as well as related policies and programming

this book offers various perspectives with an international legal focus on an important and underexplored topic which has recently gained momentum the issue of foreign fighters it provides an overview of challenges pays considerable attention to the status of foreign fighters and addresses numerous approaches both at the supranational and national level on how to tackle this problem outstanding experts in the field lawyers historians and political scientists contributed to the present volume providing the reader with a multitude of views concerning this multifaceted phenomenon particular attention is paid to its implications in light of the armed conflicts currently taking place in syria and iraq andrea de guttry is a full professor of international law at the scuola superiore sant anna pisa italy francesca capone is a research fellow in public international law at the scuola superiore sant anna christophe paulussen is a senior researcher at the t m c assen instituut in the hague the netherlands and a research fellow at the international centre for counter terrorism the hague

a team of u s and international experts assesses the impact of various nations airpower efforts during the 2011 conflict in libya including nato allies and non nato partners and how their experiences offer guidance for future conflicts in addition to the roles played by the united states britain and france it examines the efforts of italy canada belgium denmark the netherlands norway sweden qatar the uae and the libyan rebels

the probability of a world wide cyber conflict is small yet the probability of forms of cyber conflict regional or even global could be argued as being very high small countries are usually signatories to military and economic alliances with major world powers but rely heavily on the technical ability of these powers in protecting their own national interests they may be considered to be it technology colonies their cyber infrastructure is usually fully imported and their ability to assess it is limited this book poses the question to what extent should or can a small country prepare itself for handling the broad range of cyber threats looking at cyber warfare cyber terrorism cyber crime and associated concerns national experts from new zealand australia the netherlands and poland present analyses of cyber defence realities priorities and options for smaller countries they show that what is needed is the ability of small nations to be able to define and prepare appropriate responses such as the role of military law enforcement business entities continuity and resilience strategies incident response and business continuity plans and more for handling nationally aimed cyber attacks particularly where these address national critical infrastructures

the study aims to address a deficit in knowledge about migration issues in the middle east and north africa by providing a multidisciplinary and comprehensive overview of migration trends and its economic and social consequences in the arab region within the report three key trends are discussed a regular and irregular migration b forced migration and c mixed migration flows publisher s website

the international handbook features chapters by leading scholars from around the world in a unique collection exploring the multi disciplinary field of political ecology this landmark volume canvasses key developments topics issues debates and concepts showcasing how political ecologists today address pressing social and environmental

concerns introductory chapters provide an overview of political ecology and the handbook remaining chapters examine five broad themes issues and approaches governance and power knowledge and discourse method and scale connections and transformations across diverse topics and perspectives these chapters amount to a wide ranging survey of current research making the international handbook an indispensable reference for scholars and students in political ecology

thoroughly updated this new edition provides extensive information on all matters relating to the european union and full coverage of the expansion of the eu under the nice treaty
